

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Purcell
DOCKET NO.: 21-20456.001-R-1
PARCEL NO.: 05-21-401-003-0000

The parties of record before the Property Tax Appeal Board are Paul Purcell, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,920
IMPR.: \$91,773
TOTAL: \$117,693

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry construction with 3,350 square feet of living area which is approximately 13 years old.¹ Features of the home include 4½ baths, a full basement finished with formal recreation room, central air conditioning, four fireplaces, and a 2-car garage. The property has an 11,520 square foot site and is located in Chicago, New Trier Township, Cook County. The subject is classified as a class 2-78 property² under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity

¹ Some descriptive information not provided by the appellant was drawn from the evidence submitted by the board of review and not refuted by the appellant via a rebuttal filing.

² Two-or-more story residence, up to 62 years of age, containing from 2,001 to 3,800 square feet of living area.

comparables located in the same assessment neighborhood code as the subject property. The comparables consist of class 2-78 dwellings of masonry construction ranging in size from 2,856 to 3,498 square feet of living area and ranging in age from approximately 18 to 30 years old. The comparables are described as each having a full basement, however their finished area was not disclosed and neither was their design/story height. Each comparable also has central air conditioning, one or two fireplaces, and a 2-car garage. The comparables have improvement assessments that range from \$67,224 to \$82,851 or from \$23.54 to \$25.50 per square foot of living area. The appellant also submitted a brief requesting a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$117,693. The subject property has an improvement assessment of \$91,773 or \$27.39 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within ¼ of a mile or within the same "subarea" as the subject, and within the same assessment neighborhood code as the subject property. The comparables consist of 2-story class 2-78 dwellings of masonry construction ranging in size from 3,265 to 3,574 square feet of living area and ranging in age from 7 to 19 years old. Each comparable features a full basement, three finished with formal recreation rooms. Each comparable also has central air conditioning, one to three fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$105,944 to \$117,724 or from \$30.62 to \$34.59 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables in support of their positions before the Property Tax Appeal Board. The Board gave less weight to appellant's comparables which all lack descriptive information with regard to the basement finish area and design/story height, thus making a reasonable comparative analysis less reliable. The Board also gave reduced weight to board of review comparable #2 which lacks a finished basement area, dissimilar to the subject's finished basement.

On this record, the Board finds the best evidence of equity in assessment to be board of review comparables #1, #3 and #4 which are overall most similar to the subject in basement finish, as well as location, design/story height, dwelling size, class, age, and features. The best comparables contained in this record have improvement assessments ranging from \$105,944 to \$117,724 or from \$30.62 to \$34.59 per square foot of living area. The subject's improvement assessment of \$91,773 or \$27.39 per square foot of living area falls below the range established

by the best comparables in this record both in terms of overall improvement assessment and on a per square foot of living area basis.

After considering adjustments to the best comparables for differences from the subject such as older ages and smaller dwelling sizes, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's improvement assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
