

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

\$APPELLANT: Lydia DeLeo
DOCKET NO.: 21-20620.001-R-1
PARCEL NO.: 05-33-213-027-0000

The parties of record before the Property Tax Appeal Board are Lydia DeLeo, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,750
IMPR.: \$67,461
TOTAL: \$77,211

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,970 square feet of living area. The dwelling is approximately 93 years old. The home features a full basement that is finished with a formal recreation room,¹ central air conditioning, 2½ bathrooms, a fireplace and a 2-car garage. The property has a 7,800 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject dwelling has a formal recreation room in the basement, which was not refuted by the appellant.

as the subject. The comparables are improved with dwellings of frame or frame and masonry exterior construction ranging in size from 2,747 to 2,931 square feet of living area. The dwellings are from 63 to 141 years old. The comparables each have a full basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning and either 2, 2½, 3 or 3½ bathrooms. Two comparables each have one or two fireplaces and each comparable has either a 1½-car or a 2-car garage. The comparables have improvement assessments that range from \$43,321 to \$44,529 or from \$15.02 to \$16.21 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$45,679 or \$15.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$77,211. The subject property has an improvement assessment of \$67,461 or \$22.71 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject property or within the subject's subarea. The comparables are improved with two-story dwellings of frame exterior construction ranging in size from 2,237 to 2,976 square feet of living area. The dwellings are from 77 to 103 years old. The comparables each have a full basement, three of which are finished with a formal recreation room. Each comparable has 2½ or 3½ bathrooms and one or two fireplaces. Two comparables have central air conditioning and three comparables each have either a 1-car or a 1½-car garage. The comparables have improvement assessments that range from \$54,545 to \$69,059 or from \$23.03 to \$26.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables which are less similar to the subject dwelling in age than are the comparables provided by the board review. Additionally, the evidence provided by the appellant contained no data regarding basement finish of the comparable dwellings in order to allow the Property Tax Appeal Board to conduct a meaningful comparative analysis of the comparables to the subject property. The Board has given reduced weight to board of review comparables #2 and #3 due to their smaller dwelling sizes, when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #4, which are overall most similar to the subject in location, dwelling size, design, age and some features. These two comparables have improvement assessments of \$60,891 and \$69,059 or \$23.03 and \$23.21 per square foot of living area, respectively. The subject's improvement assessment of \$67,461 or \$22.71 per square foot of living area is bracketed by the two best comparables in the record in terms of total improvement assessment but below the comparables on a per square foot basis. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
