

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Terry Chess
DOCKET NO.: 21-20663.001-R-1
PARCEL NO.: 05-32-306-055-0000

The parties of record before the Property Tax Appeal Board are Terry Chess, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,571
IMPR.: \$26,672
TOTAL: \$33,243

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story townhome of frame and masonry exterior construction with 1,914 square feet of living area. The dwelling is approximately 42 years old. Features include a full basement, central air conditioning, and a 1-car garage. The property has a 5,257 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-95 townhomes of frame and masonry exterior construction with either 1,666 or 2,277 square feet of living area. The dwellings range in age

from 43 to 55 years old. Two comparables each have a full basement and two comparables each have a concrete slab foundation. Each comparable has central air conditioning and a 1-car garage. The comparables have improvement assessments ranging from \$20,058 to \$30,393 or from \$12.04 to \$13.35 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$24,499 or \$12.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$33,243. The subject property has an improvement assessment of \$26,672 or \$13.94 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code and on the same block as the subject property, two of which are also on the same street. The comparables are improved with 2-story or 3-story, class 2-95 townhomes of frame and masonry exterior construction with either 1,914 or 2,277 square feet of living area. Two comparables each have a full basement, one of which has finished area, and two comparables each have a concrete slab foundation. Each comparable has central air conditioning and a 1-car garage. The comparables have improvement assessments ranging from \$26,465 to \$44,377 or from \$13.83 to \$19.49 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2 which are located on the same block and street as the subject and are identical to the subject in design, age, and dwelling size. However, board of review comparable #2 has basement finish, unlike the subject. Nevertheless, these two comparables have improvement assessments of \$26,465 and \$26,655 or \$13.83 and \$13.93 per square foot of living area. The subject's improvement assessment of \$26,672 or \$13.94 per square foot of living area falls only slightly above the two best comparables in this record. The Board gives less weight to the parties' remaining comparables due to differences in dwelling size and/or foundation type when compared to the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
