

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jordan Scher
DOCKET NO.: 21-20976.001-R-1
PARCEL NO.: 05-06-200-019-0000

The parties of record before the Property Tax Appeal Board are Jordan Scher, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,170
IMPR.: \$112,225
TOTAL: \$149,395

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 4,489 square feet of living area that is reported to be approximately 21 years old. Features of the home include an unfinished basement, central air conditioning, one fireplace, and a 2-car garage. The property has an approximately 17,700 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-08 dwellings of masonry exterior construction ranging in size from 4,573 to 4,785 square feet of living area and range in age from 12 to 26 years old.

Each comparable has an unfinished basement, central air conditioning, and from a 2-car to a 3-car garage. Three homes have one to four fireplaces. The comparables have improvement assessments ranging from \$105,362 to \$115,250 or from \$23.04 to \$24.14 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$153,966. The subject property has an improvement assessment of \$116,796 or \$26.02 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-08 dwellings of masonry exterior construction ranging in size from 4,023 to 4,503 square feet of living area and ranging in age from 10 to 22 years old. Each comparable has a basement with finished area, central air conditioning, two to four fireplaces, and a 2-car to a 4-car garage. Comparable #2 has other improvements which are not further described. The comparables have improvement assessments ranging from \$109,667 to \$127,099 or from \$27.26 to \$28.23 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to board of review comparables which each feature finished basement area, dissimilar to the subject's unfinished basement. The Board finds the best evidence of assessment equity to be appellant's comparables which are more similar to the subject in finished basement area and are also similar in location, age, design, dwelling size, and other features. These comparables have improvement assessments ranging from \$105,362 to \$115,250 or from \$23.04 to \$24.14 per square foot of living area. The subject's improvement assessment of \$116,796 or \$26.02 per square foot of living area falls above the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
