

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Krajewski
DOCKET NO.: 21-21391.001-R-1
PARCEL NO.: 05-17-307-029-0000

The parties of record before the Property Tax Appeal Board are Charles Krajewski, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$92,128
IMPR.: \$133,168
TOTAL: \$225,296

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of stucco exterior construction with 6,819 square feet of living area. The dwelling is approximately 104 years old. Features of the home include a basement, central air conditioning, five fireplaces, and a 3-car garage. The property has a 40,946 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story, class 2-09 homes of frame, stucco, or frame and masonry exterior construction ranging in size from 5,012 to 7,579 square feet of living area. The

dwelling range in age from 44 to 139 years old. Four homes each have central air conditioning. Each home has a basement, two of which have finished area, one to three fireplaces, and from a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$57,751 to \$105,909 or from \$11.05 to \$16.74 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$95,261.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$225,296. The subject property has an improvement assessment of \$133,168 or \$19.53 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story, class 2-09 homes of stucco exterior construction ranging in size from 5,396 to 6,135 square feet of living area. The dwellings range in age from 90 to 121 years old. Each home has a basement, three of which have finished area, two or four fireplaces, and a 2-car garage. Two homes have central air conditioning. The comparables have improvement assessments ranging from \$118,766 to \$156,130 or from \$22.01 to \$26.06 per square foot of living area.

The board of review disclosed the subject sold in an arm's length sale in July 2020 for a price of \$2,550,000 or \$373.96 per square foot of living area, including land. Based on this evidence the board of review requested an increase in the subject's assessment to reflect the July 2020 sale price.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Adm.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Adm.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight equity comparables and evidence of a July 2020 sale of the subject. As an initial matter, the Board finds the board of review's evidence of the subject's July 2020 sale to be non-responsive to the appellant's assessment inequity argument. Thus, the Board finds no increase in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be the board of review's comparables #2, #3, and #4, which are more similar to the subject in dwelling size, age, location, and features, although these comparables have finished basement area unlike the subject, suggesting downward adjustments to these comparables would be needed to make them more equivalent to the subject. However, these comparables are much smaller homes than the subject with smaller garages and fewer fireplaces than the subject, and one comparable lacks central air conditioning that is a feature of the subject, suggesting upward adjustments would be needed. These comparables have improvement assessments that range from \$145,857 to \$156,130 or from \$25.45 to \$26.06 per square foot of living area. The subject's improvement assessment of

\$133,168 or \$19.53 per square foot of living area falls below the range established by the best comparables in this record. The Board gives less weight to the appellant's comparables and the board of review's comparable #1, which are less similar to the subject in dwelling size and/or age than the other comparables in this record.

Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, such as their smaller dwelling sizes compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
