

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anthony Enrietto
DOCKET NO.: 21-21434.001-R-1
PARCEL NO.: 05-20-115-019-0000

The parties of record before the Property Tax Appeal Board are Anthony Enrietto, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,025
IMPR.: \$58,013
TOTAL: \$72,038

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,612 square feet of living area. The dwelling is approximately 92 years old. Features of the home include a partial unfinished basement, 2½ bathrooms, central air conditioning, one fireplace, and a two-car garage. The property has a 9,350 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables¹ located in the same neighborhood code as the subject. The appellant supplied property characteristics printouts with additional data concerning basement, basement finish and

half-bath features which have been added for clarity. The comparables consist of class 2-06 two-story dwellings of frame or masonry exterior construction. The dwellings range in age from 65 to 93 years old and range in size from 2,255 to 3,067 square feet of living area. Four comparables have full or partial unfinished basements and comparable #1 has no basement. The homes have 2 or 2½ bathrooms and one or two fireplaces. Two comparables have central air conditioning and four comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$41,175 to \$55,925 or from \$16.99 to \$18.95 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$48,896 or \$18.72 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$72,038. The subject property has an improvement assessment of \$58,013 or \$22.21 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and either the same block or within ¼ of a mile from the subject. The comparables consist of class 2-06 two-story dwellings of frame and masonry exterior construction that are 73 to 102 years old. The homes range in size from 2,825 to 3,128 square feet of living area. Each comparable has a full or partial basement, one of which has a formal recreation room, 2½ or 3½ bathrooms, central air conditioning, one or two fireplaces, and a one-car or a two-car garage. Comparable #4 reportedly has "other improvements" that were not further identified on the record. The comparables have improvement assessments ranging from \$66,005 to \$76,636 or from \$22.84 to \$24.79 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #1, #2, #3 and #4 as well as board of review comparables #1, #2 and #3, due to substantial differences in dwelling size which range from approximately 10% to 20% when compared to the subject dwelling.

The Board finds the best evidence of assessment equity in the record are appellant's comparable #5 along with board of review comparable #4, which are each more similar to the subject in age, dwelling size, bathroom count, and some features. Various adjustments to account for differences in dwelling size, basement size, lack of air conditioning, fireplace count and/or car capacity are necessary to make these comparables more equivalent to the subject property. These comparables have improvement assessments of \$47,963 and \$66,685 or \$18.95 and \$23.61 per square foot of living area. The subject's improvement assessment of \$58,013 or \$22.21 per square foot of living area is bracketed by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
