

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ed Gray
DOCKET NO.: 21-21476.001-R-1
PARCEL NO.: 16-29-301-012-0000

The parties of record before the Property Tax Appeal Board are Ed Gray, the appellant(s), by attorney Nora Devine, of The Devine Law Group, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,095
IMPR.: \$7,905
TOTAL: \$14,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 105-year-old, 1.5-story dwelling of frame and masonry construction with 726 square feet of living area. A feature of the property is a two-car garage. The property has a 5,670 square foot site located in Berwyn, Berwyn Township, Cook County. The property is a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as a basis of the appeal. In support of this argument, the appellant submitted an appraisal estimating the subject property had a market value of \$140,000 as of January 1, 2021. The appraisal was prepared by Agnes Jurowska, a licensed certified residential real estate appraiser. The appraisers relied on the sales comparison approach in their evaluation. For the sales comparison approach, the appraiser used sales of four comparable properties in Berwyn, IL that took place between January 2020 and December 2020 for amounts

ranging from \$129,900 to \$179,900, or from \$96.51 to \$250.72 per square foot of living area, land included in the sales prices. The appraiser adjusted the sales prices to account for differences between the subject and the comparables. Photographs of the subject dwelling's exterior and interior were included with the appraisal.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,428. The subject's assessment reflects a market value of \$184,280 or \$253.83 per square foot of living area, land included, when using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%. In support of the assessment, the board of review submitted information about sales of four suggested comparable properties. The suggested comparables were sold between April 2018 and June 2020 for amounts ranging from \$324,000 to \$430,000 or between \$414.32 and \$463.41 per square foot of living area, land included in the sales prices.

In rebuttal, the appellant submitted the Multiple Listing Service (MLS) data sheets for three of the board of review's suggested comparables and pointed out characteristic differences to the subject. The appellant reaffirmed its position that the 2021 assessed value for the subject property is excessive and that the total assessment should be reduced.

On November 20, 2025, prior to the scheduled hearing date, both parties agreed to waive the hearing and have the Board render its decision based on the evidence.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds that the best evidence of the subject's market value is the appraisal submitted by the appellant. That appraisal employed the sales comparison approach and relied upon recent sales of four suggested comparable properties. The appraisal stated that the sale prices of the suggested comparable properties were adjusted to account for differences between them and the subject, taking into account such factors as gross living area, design/features, lot size, age, and location. In contrast, the board of review's evidence consists of unadjusted raw sales figures.

Based on the appraiser's final reconciliation, the Board finds the sales comparison approach is considered to be the most reflective of current market activity. Accordingly, the Board finds the subject property had a fair market value of \$140,000 as of the assessment date at issue. Since market value has been established, the level of assessment for the class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10% shall apply here. (86 Ill.Admin.Code §1910.50(c)(2)). Based on the evidence, the Board therefore finds the appellant has proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
