

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Hogan
DOCKET NO.: 21-22191.001-R-1
PARCEL NO.: 11-32-403-011-0000

The parties of record before the Property Tax Appeal Board are John Hogan, the appellant(s), by attorney Paula Raila, of Raila & Associates, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,280
IMPR.: \$40,583
TOTAL: \$56,863

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 7,400 square foot parcel of land improved with a 106-year-old, two-story, masonry, single-family dwelling containing 2,527 square feet of building area. The property is located in Chicago, Rogers Park Township, Cook County and is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity and over valuation as the bases of the appeal. In support of the uniformity argument, the appellant submitted data on four suggested comparables. These comparables are described as two-story, single-family dwellings with frame, masonry, or frame and masonry construction. They range: in age from 111 to 123 years with one unknown; in size from 2,545 to 3,181 square feet of building area; and in improvement assessments from \$15.08 to \$18.97 per square foot of building area.

In support of the market value argument, the appellant submitted three comparables. These comparables are described as two-story, stucco, single-family dwellings. They range in age from 109 to 115 years and in size from 2,212 to 2,480 square feet of building area. They sold from 2019 to 2021 for prices ranging from \$360,000 to \$500,000 or from \$163.00 to \$208.00 per square foot of building area, rounded.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$70,939 with an improvement assessment of \$54,659 or \$21.63 per square foot of building area. The total assessment reflects a market value of \$709,390 or \$280.00 per square foot of building area using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the current assessment, the board of review submitted data on three suggested comparables. These comparables are described as two-story, stucco or masonry, single-family dwellings. They range: in age from 111 to 118 years; in size from 2,269 to 4,363 square feet of building area; and in improvement assessment from \$21.84 to \$28.84 per square foot of building area. They sold from October 2019 to April 2021 for prices ranging from \$1 to \$1,620,000 or from \$143.23 to \$371.30 per square foot of building area with no explanation of the \$1.00 sale price.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appellant's comparables and the board of review's comparable #2. These comparables from October 2019 to May 2021 for prices ranging from \$162.75 and \$207.62 per square foot of building area. The remaining comparables were given less weight for differences in size or an unexplained \$1.00 sale price. In comparison, the subject's assessment reflects a market value of \$280.00 per square foot of building area which is above the range of these comparables. After making adjustments to the comparables for the subject's pertinent characteristics the Board finds the appellant has proven by a preponderance of the evidence that the subject was overvalued, and a reduction to the appellant's requested assessment justified. After this reduction for market value, the Board finds the subject is equitably assessed.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
