

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John R. Nyweide
DOCKET NO.: 21-24868.001-R-1
PARCEL NO.: 05-28-424-004-0000

The parties of record before the Property Tax Appeal Board are John R. Nyweide, the appellant, by Christopher Wojcicki, of Wojcicki Law, in Schaumburg, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,010
IMPR.: \$52,703
TOTAL: \$69,713

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 2,292 square feet of living area. The dwelling is approximately 92 years old. Features of the home include a full unfinished basement, 2½ bathrooms, central air conditioning, and a two-car garage. The property has an 8,100 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject and from .01 of a mile to 1-mile from the subject. The comparables consist of class 2-04 1-story or 1.5-story dwellings of stucco or frame and masonry exterior construction. The dwellings range in age from 52 to 102

years old and range in size from 1,829 to 2,396 square feet of living area. The comparables have full or partial basements, two of which have formal recreation rooms. Features include 2 or 3 bathrooms, two comparables have 1 or 2 half-baths, central air conditioning, one or two fireplaces, and from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$19,110 to \$51,338 or from \$10.45 to \$21.43 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$42,503 or \$18.54 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$69,713. The subject property has an improvement assessment of \$52,703 or \$22.99 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and within ¼ of a mile from the subject. The comparables consist of class 2-04 1-story or 1.5-story dwellings of frame, masonry, or frame and masonry exterior construction that range in age from 50 to 118 years old. The homes range in size from 1,964 to 2,185 square feet of living area. Each comparable has a full basement, one of which has a formal recreation room, 1 or 2 bathrooms and three comparables each have a half-bath. Two dwellings have central air conditioning. Each comparable has a fireplace and either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$48,917 to \$50,683 or from \$23.20 to \$24.91 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1, #2 and #3 along with board of review comparables #1 and #2, due to differences in age which range from 50 to 118 years old when compared to the 92-year-old subject.

The Board finds the best evidence of assessment equity in the record to be appellant's comparables #4 and #5 as well as board of review comparables #3 and #4, which are relatively similar to the subject in design, dwelling size, foundation type, fireplace and garage amenity. Three of the comparables need age adjustments to make the properties more equivalent to the

subject. Upward adjustments are necessary to three comparables for inferior bathroom count. Appellant's comparable #4 needs a downward adjustment for basement finish which is not a feature of the subject and an upward adjustment for inferior garage capacity while appellant's comparable #5 needs a downward adjustment for superior garage capacity when compared to the subject. Board of review comparable #4 needs an upward adjustment to account for the lack of central air conditioning. The Board finds these comparables have improvement assessments ranging from \$45,800 to \$51,338 or from \$20.64 to \$23.87 per square foot of living area. The subject's improvement assessment of \$52,703 or \$22.99 per square foot of living area is above the best comparables in this record in terms of overall improvement assessment and within the range on a per-square-foot of living area basis which is logical given that only appellant's comparable #4 is identical to the subject in age with the remaining comparables being older which, due to depreciation, would be expected to have lower overall values.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
