

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Wanger
DOCKET NO.: 21-25057.001-R-1
PARCEL NO.: 05-06-305-016-0000

The parties of record before the Property Tax Appeal Board are David Wanger, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,886
IMPR.: \$86,863
TOTAL: \$119,749

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,370 square feet of living area. The dwelling is approximately 96 years old. The home features a full basement that is finished with a formal recreation room,¹ central air conditioning, two fireplaces and a 2-car garage. The property has a 24,360 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In a brief the appellant contended the subject's improvement was inequitably assessed. The appellant did not contest the

subject's land assessment. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with dwellings of stucco or masonry exterior construction ranging in size from 4,040 to 4,592 square feet of living area. The dwellings are from 65 to 97 years old. Each comparable has a full basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning and a 2-car garage. Three comparables each have from one to three fireplaces. The comparables have improvement assessments that range from \$40,222 to \$73,647 or from \$9.79 to \$18.23 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$60,393 or \$13.82 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$119,749. The subject property has an improvement assessment of \$86,863 or \$19.88 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located on the same street and either within the same block or approximately ¼ of a mile from the subject property. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 3,556 to 4,880 square feet of living area. The dwellings are from 90 to 94 years old. The comparables each have a full basement, two of which are finished with a formal recreation room. Each comparable has central air conditioning, one or two fireplaces and either a 1.5-car, a 2-car or a 3-car garage. The comparables have improvement assessments that range from \$72,578 to \$97,188 or from \$19.92 to \$21.72 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant argued that board of review comparables #1 and #4 differ from the subject in living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #1 which appears to be an outlier due to its considerably lower improvement assessment of \$40,222 or \$9.79 when compared to the subject in relation to the other comparables in the record. The Board has also given less weight to the appellant's comparables #2 and #3 due to their newer dwelling ages, when compared to

the subject. The Board has given reduced weight to board of review comparables #1 and #4 due to their smaller dwelling sizes and/or lack of central air conditioning, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4, along with board of review comparables #2 and #3, which are overall most similar to the subject in location, dwelling size, age and some features. These four comparables have improvement assessments ranging from \$73,647 to \$97,188 or from \$18.23 to \$20.57 per square foot of living area. The subject's improvement assessment of \$86,863 or \$19.88 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
