

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Amy Erb
DOCKET NO.: 21-25070.001-R-1
PARCEL NO.: 05-17-106-019-0000

The parties of record before the Property Tax Appeal Board are Amy Erb, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,545
IMPR.: \$72,633
TOTAL: \$101,178

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,822 square feet of living area. The dwelling is approximately 93 years old. The home features a full unfinished basement, three full bathrooms, one half bathroom, a fireplace and a two-car garage. The property has a 12,687 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located in Winnetka and are improved with dwellings of masonry exterior construction ranging in size from 3,862 to 4,118 square feet of living area. The

dwellings are from 72 to 108 years old. The comparables each have a full or partial basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning, two or three full bathrooms, one or four fireplaces and either a 2-car, a 2.5-car or a 4-car garage. The comparables have improvement assessments that range from \$37,268 to \$66,031 or from \$9.58 to \$16.03 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$54,578 or \$14.28 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$101,178. The subject property has an improvement assessment of \$72,633 or \$19.00 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located on the same block as the subject property. The comparables are improved with two-story dwellings of frame, masonry or stucco exterior construction ranging in size from 3,196 to 3,378 square feet of living area. The dwellings are from 90 to 99 years old. The comparables each have a full basement, two of which have finished area. Three comparables have central air conditioning. Each comparable has two or three full bathrooms, one half bathroom, one or two fireplaces and either a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$64,846 to \$70,241 or from \$19.96 to \$21.69 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant argued that the board of review comparables differ from the subject in living area and/or exterior construction.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board finds the appellant's comparables are most similar to the subject in dwelling size but are located in a different city than the subject, whereas the board of review comparables are located on the same block as the subject but the dwellings are smaller in size, when compared to the subject. Nonetheless, the Board has given less weight to the appellant's comparables #1 and #2 due to differences from the subject in age.

The Board finds the appellant's comparables #3 and #4, along with the four comparables submitted by the board of review have the same property classification code as the subject and

are most similar to the subject dwelling in age. However, the comparables have varying degrees of similarity when compared to the subject in location, dwelling size and features, suggesting adjustments would be required to make them more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$61,834 to \$70,241 or from \$16.01 to \$21.69 per square foot of living area. The subject's improvement assessment of \$72,633 or \$19.00 per square foot of living area falls above the range established by the best comparables in the record terms of total improvement assessment but within the range on a per square foot basis. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
