

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sudeep Dhillon
DOCKET NO.: 21-25072.001-R-1
PARCEL NO.: 05-08-100-008-0000

The parties of record before the Property Tax Appeal Board are Sudeep Dhillon, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$59,945
IMPR.: \$132,246
TOTAL: \$192,191

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 5,223 square feet of living area. The dwelling is approximately 10 years old. The home features a full basement with finished area,¹ four full bathrooms, two half bathrooms, three fireplaces and a 3-car garage. The property has a 22,202 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject dwelling has a formal recreation room in the basement, which was not refuted by the appellant in rebuttal.

as the subject. The comparables are improved with dwellings of masonry or stucco exterior construction ranging in size from 5,055 to 5,612 square feet of living area. The dwellings are from 6 to 23 years old. The comparables each have a full basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning, from three to five full bathrooms and either a 2-car, a 2.5-car or a 3-car garage. Three comparables each have either one or three fireplaces. The comparables have improvement assessments that range from \$80,601 to \$128,550 or from \$15.94 to \$22.91 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$110,414 or \$21.14 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$192,191. The subject property has an improvement assessment of \$132,246 or \$25.32 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject property or within the subject's subarea. The comparables are improved with two-story dwellings of masonry or stucco exterior construction ranging in size from 5,248 to 6,321 square feet of living area. The dwellings are from 1 to 11 years old. The comparables each have a full basement with finished area, central air conditioning, four or five full bathrooms, two half bathrooms, from two to four fireplaces and either a 2-car, a 3-car or a 4-car garage. The comparables have improvement assessments that range from \$141,118 to \$253,894 or from \$26.65 to \$40.17 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant argued that board of review comparable #1 differs from the subject in living area and board of review comparable #3 has a stucco exterior, whereas the subject has a masonry exterior.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables as the appellant did not provide data regarding basement finish for these comparables in order to allow the Board to make a meaningful comparative analysis of the comparables to the subject. Additionally, the appellant's comparables #1 and #4 are considerably older in age when compared to the subject dwelling.

The Board has given reduced weight to board of review comparable #1 due to its larger dwelling size and newer age when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables #2 and #3, which have basement finish like the subject, are similar to the subject in location and most similar to the subject in dwelling size, age and many features. These two comparables have improvement assessments of \$141,118 and \$146,531 or \$26.65 and \$26.89 per square foot of living area. The subject's improvement assessment of \$132,246 or \$25.32 per square foot of living area falls below the two best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
