

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Moran
DOCKET NO.: 21-25075.001-R-1
PARCEL NO.: 05-34-107-040-0000

The parties of record before the Property Tax Appeal Board are Thomas Moran, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,522
IMPR.: \$102,106
TOTAL: \$123,628

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,973 square feet of living area.¹ The dwelling is approximately 24 years old. The home features a full basement with finished area, five full bathrooms, two half bathrooms, three fireplaces and a two-car garage. The property has a 10,761 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The appellant's appeal petition and evidence depicted a conflicting description of the subject property. The Board finds the appellant's brief, the appellant's grid analysis and the board of review's grid analysis each depict the subject with the same description, except the board of review disclosed the subject dwelling has a formal recreation room in the basement and two additional half bathrooms, which were not refuted by the appellant.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with dwellings of frame exterior construction ranging in size from 3,811 to 4,395 square feet of living area. The dwellings are from 2 to 4 years old. The comparables each have a full basement. No data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning, from two to five full bathrooms, one or two fireplaces and a two-car garage. The comparables have improvement assessments that range from \$26,649 to \$99,248 or from \$6.99 to \$22.58 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$123,628. The subject property has an improvement assessment of \$102,106 or \$25.70 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject property or within the subject's subarea. The comparables are improved with two-story dwellings of frame or masonry exterior construction ranging in size from 3,968 to 4,465 square feet of living area. The dwellings are from 4 to 16 years old. The comparables each have a full or partial basement with finished area, central air conditioning, three to five full bathrooms, one or two half bathrooms, one or two fireplaces and either a two-car or a three-car garage. The comparables have improvement assessments that range from \$92,600 to \$124,664 or from \$21.24 to \$29.81 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparables #2 and #3, which differ from the subject in age and/or dwelling size. Additionally, the appellant did not provide data regarding basement finish for these comparables in order to allow the Board to make a meaningful comparative analysis of the comparables to the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1 and #4, which have basement finish like the subject and are similar to the subject in location,

dwelling size, design, age and some features. These two comparables have improvement assessments of \$92,600 and \$118,285 or \$21.24 and \$29.81 per square foot of living area. The subject's improvement assessment of \$102,106 or \$25.70 per square foot of living area is bracketed by the two best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
