

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lurana McParland  
DOCKET NO.: 21-25153.001-R-1  
PARCEL NO.: 07-16-410-014-0000

The parties of record before the Property Tax Appeal Board are Lurana McParland, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,254  
**IMPR.:** \$13,706  
**TOTAL:** \$17,960

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,554 square feet of living area. The home is approximately 60 years old. Features include a slab foundation. The property has a 10,010 square foot site and is located in Hoffman Estates, Schaumburg Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,431 to 1,735 square feet of living area. The homes range in age from 60 to 65 years old. Each comparable is reported to lack a basement foundation. One comparable has

central air conditioning. Three comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$8,801 to \$15,314 or from \$6.15 to \$8.83 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$12,572 or \$8.09 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$20,625. The subject property has an improvement assessment of \$16,371 or \$10.53 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction with either 1,316 or 1,334 square feet of living area. The homes are each 60 years old. Each comparable has either a slab or crawl space foundation. Two comparables each have central air conditioning. Each comparable has from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$14,160 to \$16,291 or from \$10.76 to \$12.21 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #4 which are overall more similar to the subject in location, design/class, age, dwelling size, and most features. These comparables have improvement assessments of \$12,936 and \$15,314 or \$8.80 and \$8.83 per square foot of living area. The subject's improvement assessment of \$16,371 or \$10.53 per square foot of living area falls above the two best comparables in this record and is excessive. The appellant's remaining comparables and the board of review comparables were accorded diminished weight due to disparities from the subject in dwelling size and/or garage amenity. After considering appropriate adjustments to the two best comparables for differences from the subject, the Board finds the subject's improvement is not supported and a reduction is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
