

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Rick
DOCKET NO.: 21-25167.001-R-1
PARCEL NO.: 05-31-218-031-0000

The parties of record before the Property Tax Appeal Board are Jonathan Rick, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,692
IMPR.: \$30,244
TOTAL: \$40,936

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction with 1,821 square feet of living area. The dwelling is approximately 62 years old. Features of the home include a partial basement, that has finished area, and central air conditioning. The property has a 7,920 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties located within the same neighborhood code as the subject. The comparables are improved with multi-level dwellings of masonry or frame and masonry construction ranging in size from 1,495 to 1,946 square feet of living area. The dwellings range

in age from 58 to 62 years old. The comparables have partial basements, each of which has finished area, central air conditioning, and either a 1-car or a 2-car garage. One comparable has a fireplace. The comparables have improvement assessments ranging from \$20,273 to \$28,335 or from \$12.02 to \$15.25 per square foot of living area.

Based on this evidence the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,936. The subject property has an improvement assessment of \$30,244 or \$16.61 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties located on the same block and within the same neighborhood code as the subject. The comparables are improved with multi-level dwellings of masonry or frame and masonry construction ranging in size from 1,589 to 1,821 square feet of living area. The dwellings are either 61 or 62 years old. The comparables have partial basements, each of which has finished area, and central air conditioning. Three comparables each have a fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$27,700 to \$31,893 or from \$17.10 to \$20.07 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #3, #4 and #5, as well as the board of review's comparables #1 and #2. These comparables have varying degrees of similarity to the subject. These comparables had improvement assessments ranging from \$22,308 to \$31,135 or from \$12.02 to \$17.25 per square foot of living area. The subject's improvement assessment of \$30,244 or \$16.61 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. The Board gave less weight to the parties' remaining comparables, due to their smaller dwellings when compared to the subject. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
