

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mohammad & Jesika Razzaque  
DOCKET NO.: 21-26066.001-R-1  
PARCEL NO.: 27-07-406-008-0000

The parties of record before the Property Tax Appeal Board are Mohammad & Jesika Razzaque, the appellants, by attorney William I. Sandrick, of Sandrick Law Firm, LLC in South Holland; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$13,024  
**IMPR.:** \$74,476  
**TOTAL:** \$87,500

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of masonry exterior construction with 5,425 square feet of living area. The dwelling is approximately 20 years old. Features of the home include 3.1 bathrooms, a basement with a recreation room, central air conditioning, four fireplaces, and a 3-car garage. The property has a 26,048 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend overvaluation as the basis of the appeal. In support of this argument, the appellants submitted information on four comparable sales located within "10 houses away" and within the same assessment neighborhood code as the subject property. The comparables have sites that range in size from 27,486 to 33,976 square feet of land area and are improved with similar class 2-09 dwellings of masonry exterior construction. The dwellings range in size from

5,418 to 6,347 square feet of living area and range in age from 23 to 27 years old. Each comparable has a basement with a recreation room, central air conditioning, and two or four fireplaces.<sup>1</sup> The comparables sold from April 2019 to August 2020 for prices ranging from \$535,000 to \$880,000 or from \$98.74 to \$148.56 per square foot of living area, including land. Based on this evidence, the appellants requested that the subject's total assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$91,309. The subject's assessment reflects a market value of \$913,090 or \$168.31 per square foot of living area, including land, when applying the 10% level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance.

In support of the assessment, the board of review submitted information on four comparable sales located within .25 of a mile from the subject and in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-09 dwellings of masonry exterior construction ranging in size from 6,333 to 9,658 square feet of living area. The comparables have sites that range in size from 25,221 to 52,261 square feet of land area and range in age from 15 to 25 years old. Each comparable has a full or partial basement with two each having a formal recreation room. Each comparable also has central air conditioning, one to three fireplaces, and a 4-car garage. The comparables sold from April 2019 to April 2021 for prices ranging from \$1,075,000 to \$1,500,000 or from \$111.31 to \$184.93 per square foot of living area, land included.

### **Conclusion of Law**

The taxpayers contend that the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains a total of eight comparable sales submitted by the parties in support of their respective positions. The Board gives less weight to appellants' comparable sale #1 and board of review comparable sales #1 and #2 based on these sales occurring in 2019 which is too remote in time and less likely to accurately reflect the subject's market value as of the January 1, 2021 assessment date at issue than the remaining comparables in the record. The Board also gives less weight to board of review comparable sales #3 and #4 based on their significantly larger dwelling sizes being approximately 50% and 78% larger, respectively, than the subject dwelling.

The Board finds the best evidence of market value to be appellants' comparables #2, #3, and #4, which sold proximate to the assessment date at issue and are similar to the subject in location, design, age, and overall features. However, each of these comparables are larger in dwelling size but have slightly older ages relative the subject, meaning that varying amounts of adjustments are needed to these comparables in order to make them more equivalent to the subject. best comparables in the record sold from February to August 2020 for prices ranging from \$785,000 to \$880,000 or from \$123.68 to \$148.56 per square foot of living area, including land. The subject's assessment reflects a market value of \$913,090 or \$168.31 per square foot of living area, including land, which is higher than the best comparables in the record. After considering adjustments to the best comparables, the Board finds that the subject's assessment is excessive. This is especially evident by appellants' comparable sale #4 which is most similar to the subject property in terms of overall characteristics and presents with a recent sale price of \$875,000 or \$148.56 per square foot of living area, land included. Consequently, the Board finds that the appellants have demonstrated with preponderance of the evidence that the subject is overvalued and, thus, a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
