Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 27 vacant parcels of land totaling 345,779 square feet with 25 parcels zoned residential and two zoned commercial. The property is located in Lynwood, Bloom Township, Cook County and is classified as a class 1-00 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted an appraisal which estimated the subject's market value as of January 1, 2021, of \$560,000. The appraiser utilized the sales comparison approach to value to estimate the subject's market value and disclosed an inspection date of March 8, 2022. Under the sales comparison approach, the appraiser reviewed six residential land sales and five commercial land sales.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the assessment of \$89,604 which reflects a market value of \$896,040 using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%. The board of review did not submit any other evidence.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The current assessment reflects a market value above this value. The Board finds this appraisal to be persuasive because the appraisal discloses that the appraiser inspected the subject, reviewed the property's history, and used similar properties in the sales comparison approach. Therefore, the Board finds the subject property's market value of \$560,000 as of the assessment date at issue. Since market value has been established the Cook
