Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of six parcels of land totaling 39,452 square feet and improved with a 60-year-old, masonry, mixed-use building containing 10,365 square feet of building area. The property is located in Calumet City, Thornton Township, Cook County and is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, appellant submitted copies of the sales contract and settlement statement which disclosed the subject was purchased on June 18, 2018, for \$170,000. The petition discloses that the transfer

was not between related parties, that the property was sold using a realtor, was advertised on LoopNet for over 24 months, and that the property was not sold due to a foreclosure but for a contract for deed. The settlement statement listed commissions to a realty company. The appellant also submitted an appraisal estimating the subject's market value as of January 1, 2020 of \$175,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the assessment for one parcel. The subject's total assessment is \$49,342 which reflects a market value of \$493,420 using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the current assessment, the board of review submitted information on two sales comparables. These properties are described as two-story, frame and masonry, mixed-use buildings. They sold in November 2020 for prices of \$15.20 to \$17.36 per square foot of building area. The board of review also listed the sale of one subject parcel in July 2018 for \$42,529 or \$4.10 per square foot.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The current assessment reflects a market value above this value. The Board finds this appraisal to be persuasive because the appraisal discloses that the appraiser inspected the subject, reviewed the property's history, and used similar properties in the sales comparison approach. The Board also finds the subject's sale in 2018 is too far removed from the lien date to be as accurate of the market value as the appraisal. Therefore, the Board finds the subject property's market value of \$175,000 as of the assessment date at issue. Since market value has been established the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
