

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Taso Malamis  
DOCKET NO.: 21-27625.001-R-1  
PARCEL NO.: 22-35-209-007-0000

The parties of record before the Property Tax Appeal Board are Taso Malamis, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$9,467  
**IMPR.:** \$38,556  
**TOTAL:** \$48,023

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 3,362 square feet of living area. The home is approximately 10 years old. Features include a full basement, 3½ bathrooms, central air conditioning, one fireplace, and a garage.<sup>1</sup> The property has a 16,466 square foot site and is located in Lemont, Lemont Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

---

<sup>1</sup> The parties disagree as to the subject's garage capacity and whether the subject's basement has finished area. The appellant reported the subject has a finished basement and a 2-car garage while the board of review reported the subject to have an unfinished basement and a 3-car garage. The Board finds neither party submitted additional definitive evidence to substantiate the basement finish area and garage capacity descriptions reported.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on two grid analyses for five equity comparables located within the subject's assessment neighborhood and from 0.17 to 0.53 of a mile from the subject. For clarity in the record, the single comparable on the second grid was renumbered #5. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,980 to 3,567 square feet of living area. The homes range in age from 26 to 30 years old. Each comparable has a full basement, 2½ or 3 bathrooms, one fireplace, and a 2-car or a 2.5-car garage. Four comparables each have central air conditioning. The comparables have improvement assessments ranging from \$25,300 to \$29,160 or from \$7.99 to \$8.56 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,023. The subject property has an improvement assessment of \$38,556 or \$11.47 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood; one of which is located on the same tax block and along the same street and three comparables are ¼ of a mile from the subject. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction with either 3,398 or 3,827 square feet of living area. The homes range in age from 4 to 10 years old. Each comparable has a full basement, 2½ or 3½ bathrooms, central air conditioning, one fireplace, and a 3-car garage. The comparables have improvement assessments ranging from \$39,721 to \$49,748 or from \$11.69 to \$14.68 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and board of review comparable #3 which are less similar to the subject in age and/or dwelling size than other comparables in this record. Further, the appellant's comparable #1 lacks central air conditioning, which the subject features.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #4 which are similar to the subject in location, design/class, age, and dwelling size with varying degrees of similarity in other features. The best comparables have improvement

assessments ranging from \$39,721 to \$49,748 or from \$11.69 to \$14.68 per square foot of living area. The subject's improvement assessment of \$38,556 or \$11.47 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
