

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Syed Anwar  
DOCKET NO.: 21-27638.001-R-1  
PARCEL NO.: 27-31-410-015-0000

The parties of record before the Property Tax Appeal Board are Syed Anwar, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis, in Kenosha, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,980  
**IMPR.:** \$25,852  
**TOTAL:** \$31,832

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal. By correspondence dated June 18, 2025, the appellant waived the hearing request.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 2,493 square feet of living area. The dwelling is approximately 22 years old. Features of the home include a basement, central air conditioning, a fireplace, and a three-car garage.<sup>1</sup> The property has a 10,400 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code and from .77 of a mile to 1.12-miles from

<sup>1</sup> The board of review reported a three-car garage which was not refuted by the appellant.

the subject. The comparables consist of class 2-04 one-story dwellings of frame and masonry exterior construction. The comparables range in age from 26 to 32 years old. The dwellings range in size from 2,359 to 2,869 square feet of living area. Each comparable has a basement, one fireplace, and a two-car garage. Four homes each have central air conditioning. The comparables have improvement assessments ranging from \$18,874 to \$22,582 or from \$7.82 to \$8.62 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$20,617 or \$8.27 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,832. The subject property has an improvement assessment of \$25,852 or \$10.37 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and the same block/same street or ¼ of a mile from the subject. The comparables consist of class 2-04 one-story dwellings of frame and masonry exterior construction which range in age from 21 to 23 years old. The dwellings each contain 2,493 square feet of living area. Each comparable has a partial basement, central air conditioning, a fireplace, and a three-car garage. The comparables have improvement assessments ranging from \$25,877 to \$27,314 or from \$10.38 to \$10.96 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine suggested equity comparables to support their respective positions before the Property Tax Appeal Board which were located in the same neighborhood code as the subject. The Board has given reduced weight to appellant's comparables #1 and #3, due to significant differences in dwelling size and lack of air conditioning, respectively, when compared to the subject dwelling.

The Board finds the best equity comparables in the record are appellant's comparables #2, #4 and #5 along with the board of review comparables, which are range in age from 21 to 27 years old and thus bracket the subject's age of 22 years old. The homes are each similar to the subject in foundation type and some amenities. An adjustment to three of the appellant's comparables are necessary for smaller garage capacity when compared to the subject. These best comparables have improvement assessments ranging from \$18,874 to \$27,314 or from \$8.00 to \$10.96 per square foot of living area. The subject's improvement assessment of \$25,852 or \$10.37 per square foot of living area is within the range of the best comparables both in terms of overall

improvement assessment and on a per-square-foot of living area basis. Furthermore, the Board finds the subject is particularly well-supported by the board of review comparables which are nearly identical to the subject in multiple respects and are each slightly above the subject's improvement assessment both in terms of overall value and on a per-square-foot basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
