

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: A. Saccone & Sons  
DOCKET NO.: 21-30384.001-R-1  
PARCEL NO.: 13-36-322-010-0000

The parties of record before the Property Tax Appeal Board are A. Saccone & Sons, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,487  
**IMPR.:** \$40,512  
**TOTAL:** \$52,999

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story multi-family building of frame exterior construction with 3,855 square feet of gross building area and which is approximately 143 years old. Features include a full unfinished basement, 3 full bathrooms, and a two-car garage. The property has a 2,775 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject along with property characteristics printouts that were analyzed to correct data in the Section V grid analysis. The comparables consist of class 2-11 two-story or three-story buildings of masonry or frame exterior

construction that are 116 to 133 years old. The buildings range in size from 3,705 to 4,218 square feet of gross building area. Features include 3 full bathrooms. Each comparable has a full or partial basement, two of which are finished with an apartment, and three comparables have either a 3.5-car or a 4-car garage. The comparables have improvement assessments ranging from \$23,063 to \$31,404 or from \$6.22 to \$8.10 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$27,833 or \$7.22 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$52,999. The subject property has an improvement assessment of \$40,512 or \$10.51 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which are located in the same neighborhood code and either on the same block or within ¼ of a mile from the subject. The comparables consist of class 2-11 two-story or three-story buildings of masonry or frame exterior construction ranging in age from 128 to 138 years old. The buildings range in size from 3,714 to 3,863 square feet of gross building area. Each comparable has a full unfinished basement, 3 full bathrooms and comparable #1 has air conditioning. Two comparables each have either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$41,411 to \$50,512 or from \$11.00 to \$13.15 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board which present varying degrees of similarity to the subject property. Each comparable necessitates adjustment for its newer age when compared to the subject and eight of the comparables require adjustments to account for differing garage capacity when compared to the subject. Board of review comparable #1 needs an adjustment for air conditioning, which is not a feature of the subject. The comparables in the record have improvement assessments ranging from \$23,063 to \$50,512 or from \$6.22 to \$13.15 per square foot of gross building area. The subject's improvement assessment of \$40,512 or \$10.51 per square foot of gross building area falls within the range of the comparables in this record both in terms of overall improvement assessment and on a per-square-foot of gross building area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation

burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables in the record for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
