

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joshua Ackerman
DOCKET NO.: 21-30395.001-R-1
PARCEL NO.: 13-36-423-015-0000

The parties of record before the Property Tax Appeal Board are Joshua Ackerman, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,392
IMPR.: \$67,777
TOTAL: \$81,169

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,197 square feet of living area. The dwelling is approximately 4 years old. Features of the home include a full basement finished with a formal recreation room, 3½ bathrooms, central air conditioning, a fireplace, and a two-car garage. The property has a 2,976 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject along with property characteristics printouts which were used to correct/add data in the Sec. V grid analysis. The comparables consist of class 2-78 two-story dwellings of frame, stucco, masonry, or frame and

masonry exterior construction. The dwellings are 18 to 24 years old and range in size from 2,052 to 2,404 square feet of living area. Four comparables have full or partial unfinished basements. Each comparable has from 1½ to 2½ bathrooms, and either a 3-car or a 3.5-car garage. Three homes have central air conditioning and three each have a fireplace. The comparables have improvement assessments ranging from \$43,875 to \$49,938 or from \$20.77 to \$21.90 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$46,224 or \$21.04 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$81,169. The subject property has an improvement assessment of \$67,777 or \$30.85 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and three of which are on the same tax block, with the fourth comparable being ¼ of a mile from the subject. The comparables consist of class 2-78 two-story dwellings of frame or frame and masonry exterior construction that are 7 to 22 years old. The homes range in size from 2,113 to 2,380 square feet of living area. Each comparable has a full basement finished with a formal recreation room, 3½ bathrooms, central air conditioning, and a two-car garage. Two comparables have one and two fireplaces, respectively. The comparables have improvement assessments ranging from \$73,050 to \$79,608 or from \$31.35 to \$36.73 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables along with and board of review comparable #4, due to differences in age when compared to the subject that is 4 years old.

The Board finds the best evidence of assessment equity in the record to be board of review comparables #1, #2 and #3, which are each relatively similar to the subject in location, age, exterior construction, bathroom count, foundation, basement finish, garage capacity and some features. Adjustments for dwelling size differences and fireplace amenity are necessary to make the comparables more equivalent to the subject. These best comparables have improvement

assessments ranging from \$74,608 to \$79,608 or from \$31.35 to \$36.73 per square foot of living area. The subject's improvement assessment of \$67,777 or \$30.85 per square foot of living area is below the range of the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
