

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Deann Bayless
DOCKET NO.: 21-30575.001-R-1
PARCEL NO.: 14-31-420-022-0000

The parties of record before the Property Tax Appeal Board are Deann Bayless, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,594
IMPR.: \$118,322
TOTAL: \$138,916

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,952 square feet of living area. The home is approximately 127 years old. Features include a full basement,¹ central air conditioning, and one fireplace. The property has a 2,942 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject property. The comparables are improved with 2-story, class 2-06 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 2,682 to 2,903 square feet of living area. The

¹ The board of review disclosed the subject has an unfinished full basement, which was unrefuted by the appellant.

homes range in age from 99 to 131 years old. Four comparables each have a full basement with finished area and one comparable has a slab foundation. Each comparable has central air conditioning and either a 3-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$69,200 to \$84,768 or from \$25.12 to \$29.20 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$83,777 or \$28.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$138,916. The subject property has an improvement assessment of \$118,322 or \$40.08 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject property. The comparables are improved with 2-story or 3-story, class 2-06 dwellings of masonry exterior construction ranging in size from 2,720 to 3,329 square feet of living area. The homes range in age from 98 to 136 years old. The comparables each have a full basement, three of which have finished area. Three comparables each have central air conditioning. One comparable has a fireplace. Each comparable has either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$117,395 to \$172,508 or from \$41.92 to \$51.82 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board parties' comparables have varying degrees of similarity to the subject in property characteristics. Nevertheless, the Board gives diminished weight to the appellant's comparable #1 and board of review comparable #3 due to substantial differences from the subject in foundation type or dwelling size. The seven remaining comparables have improvement assessments ranging from \$78,060 to \$132,949 or from \$28.11 to \$46.34 per square foot of living area. The subject's improvement assessment of \$118,322 or \$40.08 per square foot of living area falls within the range established by the most similar comparables in this record. Based on this record and after considering the necessary adjustments required for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
