

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mansfield park LLC Series 2935
DOCKET NO.: 21-30608.001-R-1
PARCEL NO.: 13-25-216-008-0000

The parties of record before the Property Tax Appeal Board are Mansfield park LLC Series 2935, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,250
IMPR.: \$74,750
TOTAL: \$106,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story apartment building of masonry construction with 6,240 square feet of gross building area which is approximately 94 years old.¹ The building features six full bathrooms, an unfinished basement, and a 3.5-car garage. The property has a 6,250 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property² under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity

comparables located in the same assessment neighborhood code as the subject property. The comparables consist of 2-story or 3-story, class 2-11 apartment buildings of masonry construction ranging in size from 5,370 to 7,027 square feet of gross building area and ranging in age from approximately 97 to 126 years old. The comparables are described as each having four to seven full bathrooms and a full basement, three finished with an apartment. Three comparables each have a 3.5-car garage. The comparables have improvement assessments that range from \$47,712 to \$79,070 or from \$8.64 to \$11.40 per square foot of gross building area. The appellant also submitted the property information sheets from the Cook County Assessor's database for each comparable property. Based on this evidence, the appellant requested a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$106,000. The subject property has an improvement assessment of \$74,750 or \$11.98 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject and within the same subarea as the subject property. The comparables consist of 2-story or 3-story, class 2-11 apartment buildings of masonry construction ranging in size from 5,658 to 6,750 square feet of gross building area and ranging in age from approximately 95 to 114 years old. Each comparable features from four to seven full bathrooms with comparable #3 featuring three additional half-baths; each comparable has a partial or full basement, three finished with an apartment; one comparable has central air conditioning; and one comparable has a 4-car garage. The comparables have improvement assessments ranging from \$73,916 to \$145,040 or from \$12.06 to \$21.49 per square foot of gross building area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables in support of their positions before the Property Tax Appeal Board. The Board gives less weight to appellant's comparables #2 and #5, along with board of review comparables #1, #2, and #4 due to each of these comparables lacking a garage which is a feature of the subject property. The Board also gives less weight to appellant's comparable #1 based on its significantly larger size of gross building area relative to the subject. On this record, the Board finds the best evidence of assessment equity to be appellant's comparables #3 and #4, along with board of review comparable #3 which are most similar to the subject overall in location, age, gross building area, and some features. However, appellant's comparable #3 and board of review comparable #3 both have a finished basement area, unlike the subject's unfinished basement, thus necessitating downward adjustments to the comparables in order to make them more equivalent to the subject. The three best comparables in

the record have improvement assessments ranging from \$56,180 to \$95,928 or from \$9.51 to \$14.97 per square foot of gross building area. The subject's improvement assessment of \$74,750 or \$11.98 per square foot of gross building area falls within the range established by four most similar comparables in the record both in terms of overall improvement assessment and on a per square foot of gross building area basis.

After considering adjustments to the best comparables for any differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's improvement assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
