

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Loulousis
DOCKET NO.: 21-30609.001-R-1
PARCEL NO.: 13-36-101-012-0000

The parties of record before the Property Tax Appeal Board are Andrew Loulousis, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,062
IMPR.: \$48,240
TOTAL: \$62,302

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story apartment building of masonry construction with 2,774 square feet of gross building area which is approximately 126 years old.¹ The building features three full bathrooms, a full unfinished basement, and a 2-car garage. The property has a 3,125 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property² under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity

² Apartment building with 2 to 6 units, any age.

comparables located in the same assessment neighborhood code as the subject property. The comparables consist of 1.5-story or 2-story, class 2-11 apartment buildings of frame or masonry construction ranging in size from 2,580 to 3,001 square feet of gross building area and ranging in age from approximately 118 to 131 years old. The comparables are described as each having two or three full bathrooms; two comparables have a full unfinished basement; and three comparables each have a 3.5-car garage. The comparables have improvement assessments that range from \$27,263 to \$32,400 or from \$10.01 to \$11.10 per square foot of gross building area. The appellant also submitted the property information sheets from the Cook County Assessor's database for each comparable property. Based on this evidence, the appellant requested a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,302. The subject property has an improvement assessment of \$48,240 or \$17.39 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject and within the same block as the subject property. The comparables consist of 2-story, class 2-11 apartment buildings of masonry construction ranging in size from 2,096 to 2,760 square feet of gross building area and being either 126 or 133 years old. Each comparable features two full bathrooms with comparable #2 featuring an additional half-bath; each comparable has a full basement, one finished with an apartment; one comparable has a fireplace; and each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$43,985 to \$56,150 or from \$19.00 to \$24.30 per square foot of gross building area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables in support of their positions before the Property Tax Appeal Board. The Board gives less weight to appellant's comparables #1, #2, #4, and #5 due to each of these comparables lacking a garage and/or a basement, both of which are features of the subject property. The Board also gives less weight to board of review comparables #2, #3, and #4 based on their significantly smaller size of gross building area relative to the subject. On this record, the Board finds the best evidence of assessment equity to be appellant's comparable #3 and board of review comparable #1 which are most similar to the subject overall in location, age, gross building area, and some features. However, board of review comparable #1 has a basement finished with an apartment, unlike the subject's unfinished basement, and a lower bathroom count relative to the subject, thus necessitating adjustments to this comparable in order to make it more equivalent to the subject. Similarly, appellant's comparable #3 is slightly older in age, and has a larger garage relative to the subject, thus

needing adjustments for these differences from the subject. The two best comparables in the record have improvement assessments of \$30,875 and \$56,150 or \$10.46 and \$20.34 per square foot of gross building area. The subject's improvement assessment of \$48,240 or \$17.39 per square foot of gross building area is bracketed by the most similar comparables in the record both in terms of overall improvement assessment and on a per square foot of gross building area basis.

After considering adjustments to the best comparables for any differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and, therefore, a reduction in the subject's improvement assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
