

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Mitchell
DOCKET NO.: 21-30617.001-R-1
PARCEL NO.: 14-31-416-034-0000

The parties of record before the Property Tax Appeal Board are Charles Mitchell, the appellant, by attorney Dora Cornelio of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,552
IMPR.: \$107,669
TOTAL: \$121,221

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry exterior construction with 2,566 square feet of living area. The dwelling is approximately 22 years old. The home features a full basement that is finished with a formal recreation room,¹ three full bathrooms, central air conditioning, two fireplaces and a two-car garage. The property has a 1,936 square foot site and is located in Chicago, West Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject dwelling has a full basement finished with a formal recreation room, which was not refuted by the appellant.

as the subject. According to the property characteristic printouts provided by the appellant, the comparables are improved with two-story or three-story dwellings of masonry exterior construction ranging in size from 2,332 to 2,591 square feet of living area. The dwellings are from 22 to 51 years old. Four comparables each have a full basement, two of which are finished with a recreation room. Each comparable has central air conditioning and two or four full bathrooms. Four comparables each have an additional one or two half bathrooms, two comparables each have a fireplace and four comparables each have either a two-car or a three-car garage. The comparables have improvement assessments that range from \$56,200 to \$74,200 or from \$23.47 to \$30.15 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$67,357 or \$26.25 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$121,221. The subject property has an improvement assessment of \$107,669 or \$41.96 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject property, two of which are also on the same street. The comparables are improved with two-story or three-story dwellings of masonry exterior construction ranging in size from 2,278 to 2,705 square feet of living area. The dwellings are 19 or 22 years old. The comparables each have a full basement that is finished with a formal recreation room, central air conditioning, two or three full bathrooms, one or two fireplaces and a two-car garage. Three comparables each have an additional half bathroom. The comparables have improvement assessments that range from \$102,440 to \$118,939 or from \$43.43 to \$44.97 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's five comparables, as well as board of review comparables #3 and #4 due to their dissimilar two-story design when compared to the subject's three-story design and/or their lack of basement finish, a feature of the subject. Additionally, the appellant's comparable #1 has no garage, a feature of the subject and the appellant's comparable #2 is a considerably older dwelling that has no basement, when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2, which are overall most similar to the subject in location, dwelling size, design, age and most features. These two comparables have improvement assessments of \$114,315 and \$104,448 or \$44.55 and \$43.43 per square foot of living area, respectively. The subject's improvement assessment of \$107,669 or \$41.96 per square foot of living area is bracketed by the two best comparables in the record in terms of total improvement assessment and is less than these comparables on a per square foot basis. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
