

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Angie Yarusso
DOCKET NO.: 21-30624.001-R-1
PARCEL NO.: 13-36-428-009-0000

The parties of record before the Property Tax Appeal Board are Angie Yarusso, the appellant, by attorney Ciarra Schmidt of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,500
IMPR.: \$61,500
TOTAL: \$75,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,638 square feet of living area. The dwelling is approximately 16 years old. The home features a full basement that is finished with a formal recreation room,¹ three full bathrooms, one half bathroom, central air conditioning, two fireplaces and a 2-car garage. The property has a 3,000 square foot site and is located in Chicago, West Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity

comparables that have the same assessment neighborhood code and property classification code as the subject. According to the property detail printouts provided by the appellant, the comparables are improved with two-story or three-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 2,378 to 2,640 square feet of living area. The dwellings are from 0 to 27 years old. The comparables each have a full or partial basement, two of which are finished with a recreation room. Three comparables have central air conditioning. Each comparable has one to three full bathrooms and two comparables each have an additional half bathroom. Two comparables each have a fireplace and three comparables each have either a 1-car or a 3.5-car garage. The comparables have improvement assessments that range from \$37,750 to \$52,144 or from \$15.87 to \$20.36 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$45,901 or \$17.40 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$75,000. The subject property has an improvement assessment of \$61,500 or \$23.31 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject property or approximately ¼ of a mile from the subject property, three of which are also along the same street. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 2,520 to 2,638 square feet of living area. The dwellings are from 14 to 16 years old. The comparables each have a full basement that is finished with a formal recreation room, central air conditioning, three full bathrooms, one half bathroom, two fireplaces and a 2-car garage. The comparables have improvement assessments that range from \$61,500 to \$67,500 or from \$23.31 to \$25.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's five comparables due to their lack of basement finish or their lack of a garage, which are both features of the subject. Additionally, the appellant's comparables #1 and #2 lack central air conditioning, a feature of the subject; the appellant's comparables #1 and #3 differ from the subject dwelling in age; and the appellant's comparable #5 is a dissimilar three-story dwelling when compared to the subject dwelling's two-story design.

The Board finds the best evidence of assessment equity to be the four comparables submitted by the board of review, which are similar to the subject in location and overall most similar, if not identical, to the subject dwelling in size, design, age and most features. The comparables have improvement assessments that range from \$61,500 to \$67,500 or from \$23.31 to \$25.95 per square foot of living area. The subject's improvement assessment of \$61,500 or \$23.31 per square foot of living area is well supported by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
