

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ralph Trevino
DOCKET NO.: 21-30629.001-R-1
PARCEL NO.: 17-17-318-031-0000

The parties of record before the Property Tax Appeal Board are Ralph Trevino, the appellant, by attorney Ciarra Schmidt of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,062
IMPR.: \$53,555
TOTAL: \$67,617

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 2,596 square feet of gross building area. The building is approximately 133 years old. Features of the building include a full unfinished basement and two full bathrooms.¹ The property has a 3,125 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject building has a full unfinished basement, which was not refuted by the appellant.

as the subject. According to the property detail printouts provided by the appellant, the comparables are improved with two-story or three-story multi-family buildings of masonry exterior construction ranging in size from 2,508 to 2,724 square feet of gross building area. The buildings are from 96 to 165 years old. The comparables each have a full basement, one of which is finished with a recreation room. Each comparable has two or three full bathrooms, one comparable has an additional half bathroom, one comparable has two fireplaces and three comparables each have a 3.5-car garage. The comparables have improvement assessments that range from \$37,526 to \$39,825 or from \$14.62 to \$15.09 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$38,836 or \$14.96 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,617. The subject property has an improvement assessment of \$53,555 or \$20.63 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject or approximately ¼ of a mile from the subject property, one of which is also located along the same street. The comparables are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 2,288 to 2,712 square feet of gross building area. The buildings are from 111 to 153 years old. The comparables each have a full basement, two of which are finished with a formal recreation room. Each comparable has two full bathrooms. The comparables have improvement assessments that range from \$51,228 to \$55,937 or from \$19.81 to \$22.59 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #3, #4 and #5, as well as board of review comparables #1 and #3 which have a garage or basement finish, unlike the subject. Additionally, the appellant's comparables #1 and #4 are less similar to the subject building in age and/or story height than are other comparables in the record.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2, along with board of review comparables #2 and #4, which are two-story buildings, like the subject and are similar to the subject in location, building size, age and some features. The

comparables have improvement assessments ranging from \$37,875 to \$55,937 or from \$14.84 to \$22.06 per square foot of gross building area. The subject's improvement assessment of \$53,555 or \$20.63 per square foot of gross building area falls within the range established by the best comparables in the record.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
