

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patricia Mocco
DOCKET NO.: 21-30644.001-R-1
PARCEL NO.: 16-11-414-020-0000

The parties of record before the Property Tax Appeal Board are Patricia Mocco, the appellant, by attorney Ciarra Schmidt of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,575
IMPR.: \$7,443
TOTAL: \$12,018

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,236 square feet of living area. The dwelling is approximately 123 years old. The home features a concrete slab foundation, 3 bathrooms and a 2.5-car garage. The property has a 3,894 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code as the subject, two of which are also located along the same street as the subject. The comparables are improved with two-story dwellings of frame or masonry exterior construction

ranging in size from 3,012 to 3,162 square feet of living area. The dwellings are from 111 to 136 years old. According to the property characteristic printouts provided by the appellant, each comparable has 3 bathrooms and four comparables each have a 1.5-car garage.¹ The comparables have improvement assessments that range from \$6,327 to \$7,448 or from \$2.03 to \$2.36 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$7,248 or \$2.24 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,999. The subject property has an improvement assessment of \$22,424 or \$6.93 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. One comparable is located within ¼ of a mile from the subject property and one comparable is located along the same street as the subject. The comparables are improved with two-story or three-story dwellings of masonry exterior construction ranging in size from 2,686 to 3,590 square feet of living area. The dwellings are from 118 to 133 years old. The comparables each have a full basement, one of which is finished with a formal recreation room. Each comparable has either 1, 2½ or 3 bathrooms, one comparable has central air conditioning and one comparable has a 2-car garage. The comparables have improvement assessments that range from \$20,593 to \$29,828 or from \$7.51 to \$8.31 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the four comparables submitted by the board of review, which have basement foundations, unlike the subject's concrete slab foundation and/or the dwellings are less similar to the subject in design or size.

The Board finds the best evidence of assessment equity to be the appellant's comparables, which have the same assessment neighborhood code and property classification code as the subject. These five comparables are overall more similar to the subject in dwelling size, foundation type, age and most features. However, the Board finds the each comparable has a smaller garage

¹ The appellant reported in the grid analysis that comparable #4 has a 2-car garage, however the property characteristic printout did not depict a garage on this property.

capacity when compared to the subject, suggesting upward adjustments would be required to make them more equivalent to the subject. Nevertheless, the comparables have improvement assessments that range from \$6,327 to \$7,448 or from \$2.03 to \$2.36 per square foot of living area. The subject's improvement assessment of \$22,424 or \$6.93 per square foot of living area falls above the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive. Therefore, based on this record the Board finds a reduction in the subject's improvement assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
