

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Craig Morrall
DOCKET NO.: 21-30648.001-R-1
PARCEL NO.: 17-07-216-008-0000

The parties of record before the Property Tax Appeal Board are Craig Morrall, the appellant, by attorney Ciarra Schmidt of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,680
IMPR.: \$82,311
TOTAL: \$95,991

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 1,796 square feet of living area. The dwelling is approximately 7 years old. The home features a full basement that is finished with a formal recreation room,¹ two full bathrooms, one half-bathroom, central air conditioning and a 2-car garage. The property has a 2,280 square foot site and is located in Chicago, West Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject dwelling has a full basement finished with a formal recreation room and an additional half bathroom, which were not refuted by the appellant.

as the subject. According to the property characteristic printouts provided by the appellant, the comparables are improved with two-story or three-story dwellings of stucco, frame, masonry or frame and masonry exterior construction ranging in size from 1,648 to 1,952 square feet of living area. The dwellings are from 22 to 26 years old. Four comparables each have a full basement, one of which is finished with a recreation room. Each comparable has one or two full bathrooms, four comparables each have an additional half bathroom, four comparables have central air conditioning, two comparables each have a fireplace and two comparables each have either a 3-car or a 3.5-car garage. The comparables have improvement assessments that range from \$48,288 to \$59,900 or from \$26.47 to \$30.69 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$52,622 or \$29.30 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$95,991. The subject property has an improvement assessment of \$82,311 or \$45.83 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject, approximately $\frac{1}{4}$ of a mile from the subject property or within the subject's subarea. The comparables are improved with two-story dwellings of frame or masonry exterior construction ranging in size from 1,654 to 1,989 square feet of living area. The dwellings are 7 or 10 years old. The comparables each have a full basement that is finished with a formal recreation room, two or three full bathrooms, one additional half bathroom, central air conditioning and a 2-car garage. Comparable #4 has a fireplace. The comparables have improvement assessments that range from \$77,098 to \$90,600 or from \$45.55 to \$48.43 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's five comparables due to their older dwelling ages and/or three-story design, when compared to the subject dwelling's two-story design. Additionally, four of the five appellant's comparables each lack basement finish, three comparables have no garage and one comparable has no central air conditioning, all features of the subject.

The Board finds the best evidence of assessment equity to be the four comparables submitted by the board of review, which have basement finish like the subject and are overall most similar to the subject in location, dwelling size, design, age and most features. The comparables have improvement assessments that range from \$77,098 to \$90,600 or from \$45.55 to \$48.43 per square foot of living area. The subject's improvement assessment of \$82,311 or \$45.83 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
