

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John O'Laughlin
DOCKET NO.: 21-31693.001-R-1
PARCEL NO.: 14-08-302-007-0000

The parties of record before the Property Tax Appeal Board are John O'Laughlin, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,528
IMPR.: \$33,472
TOTAL: \$66,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, multi-family building of stucco exterior construction with 3,696 square feet of building area. The building is approximately 120 years old. Features of the home include a full basement and a 2.5-car garage. The property has a 4,066 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,856 to 4,644 square feet of building area. The comparables range in age from 95 to 123 years old. Each comparable is reported to have a full basement, central air conditioning, and

a 2-car garage. The comparables have improvement assessments ranging from \$23,360 to \$37,960 or from \$8.17 to \$8.35 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$30,492 or \$8.25 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,000. The subject property has an improvement assessment of \$33,472 or \$9.06 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 2-story or 3-story, multi-family buildings of masonry exterior construction ranging in size from 3,754 to 3,976 square feet of building area. The comparables range in age from 118 to 121 years old. Each comparable has a full or partial basement with two finished with either an apartment or a recreation room. One comparable has a 2-car garage. The comparables have improvement assessments ranging from \$35,513 to \$45,048 or from \$9.46 to \$11.33 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the board of review's comparables as they are more similar to the subject in location, age, building size, and some features. Two comparables each have finished basements, which the subject lacks, and three comparables each lack a garage, which the subject features, suggesting adjustments are needed to account for these differences with the subject. Nevertheless, these comparables have improvement assessments ranging from \$35,513 to \$45,048 or from \$9.46 to \$11.33 per square foot of building area. The subject's improvement assessment of \$33,472 or \$9.06 per square foot of building area falls below the assessments of the best comparables in this record. The Board gave less weight to the appellant's comparables which are less similar in dwelling size to the subject than the board of review comparables. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
