

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Fairmont Property Management, Inc.  
DOCKET NO.: 21-31747.001-R-1  
PARCEL NO.: 14-29-425-020-0000

The parties of record before the Property Tax Appeal Board are Fairmont Property Management, Inc., the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$36,000  
**IMPR.:** \$68,000  
**TOTAL:** \$104,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 3-story multi-family building of masonry exterior construction with 3,420 square feet of building area. The building is approximately 143 years old. Features of the property include a basement finished with an apartment and a 2-car garage. The property has an approximately 2,400 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of masonry exterior construction ranging in size from 3,723 to 3,960 square feet of building area and are 123 or 128 years old. Each

comparable has a basement, central air conditioning and a 2-car garage. The comparables have improvement assessments ranging from \$49,456 to \$58,125 or from \$13.28 to \$15.26 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$49,180 or \$14.38 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$104,000. The subject property has an improvement assessment of \$68,000 or \$19.88 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 3-story class 2-11 buildings of masonry exterior construction ranging in size from 3,035 to 3,276 square feet of building area. The buildings range in age from 120 to 143 years old. Each comparable has a basement, two of which are finished with an apartment. Two buildings have either one or three fireplaces and three properties have a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$61,658 to \$69,875 or from \$18.85 to \$21.75 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board finds seven of the eight comparables are from 15 to 20 years newer in age when compared to the subject, nevertheless, the equity comparables are similar to the subject in location, design, building size and some features. These comparables have improvement assessments ranging from \$49,456 to \$69,875 or from \$13.28 to \$21.75 per square foot of building area. The subject's improvement assessment of \$68,000 or \$19.88 per square foot of building area falls between the range established by the equity comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
