

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dalia Rabinowitz
DOCKET NO.: 21-32138.001-R-1
PARCEL NO.: 04-16-104-020-0000

The parties of record before the Property Tax Appeal Board are Dalia Rabinowitz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,678
IMPR.: \$23,484
TOTAL: \$39,162

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,472 square feet of living area. The dwelling is approximately 50 years old. Features of the home include a concrete slab foundation, central air conditioning, one fireplace and a 2-car garage. The property has an approximately 12,060 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted four equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of frame and masonry exterior construction that range in size from 2,376 to 2,525 square feet of living area. The dwellings range in age from 52 to 55 years old. Each comparable has a basement, central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments that range from \$21,959 to \$26,840 or from

\$9.14 to \$10.85 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$24,226 or \$9.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$47,267. The subject property has an improvement assessment of \$31,589 or \$12.78 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject and on the same block as the subject property. The comparables are improved with class 2-78, 2-story dwellings of frame and masonry exterior construction each containing 2,472 square feet of living area. The dwellings range in age from 50 to 52 years old. Each comparable has a basement, three with finished area, central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments that range from \$32,840 to \$38,205 or from \$13.28 to \$15.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to board of review comparables #2, #3 and #4, due to their differences from the subject in finished basement.

The Board finds the best evidence of assessment equity to be the appellant's comparables along with board of review comparable #1. The Board finds that these comparables are most similar to the subject in location, design, dwelling size, age and features. The Board recognizes that downward adjustments are necessary to each property to account for its basement, which is not a feature of the subject. These most similar comparables have improvement assessments ranging from \$21,969 to \$35,423 or from \$9.14 to \$14.33 per square foot of living area. The subject's improvement assessment of \$31,589 or \$12.78 per square foot of living area falls within the range of the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive. Therefore, based on this record the Board finds a reduction in the assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
