Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a 1-story dwelling of frame and masonry exterior construction with 1,873 square feet of living area. The dwelling is approximately 64 years old. Features of the home include an unfinished basement, central air conditioning, one fireplace and a 2-car garage. The property has a combined 13,200 square foot site and is located in Northfield, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-04 dwellings of masonry or frame exterior construction that range in size from 1,874 to 2,056 square feet of living area. The dwellings range in age from 66 to 73 years old. Each comparable has an unfinished basement, central air

conditioning, and a 2-car garage. Three comparables each have one fireplace. The comparables have improvement assessments that range from \$20,346 to \$23,476 or from \$10.86 to \$11.61 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$20,903 or \$11.16 per square foot of living area.

The appellant's submission included a copy of the "Cook County Board of Review" final decision dated August 22, 2022 which disclosed the subject has a total assessment for the two parcels of \$40,160. The "Addendum to Petition" disclosed the subject's total assessment reflects a total land assessment of \$16,170 and a total improvement assessment of \$23,990 or \$12.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for only one of the parcels under appeal. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-04, 1-story dwellings of frame and masonry exterior construction that range in size 1,908 to 2,186 square feet of living area. Each dwelling is 66 years old. Each comparable has a concrete slab foundation, central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments that range from \$23,944 to \$27,486 or from \$12.55 to \$12.76 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven suggested equity comparables for the Board's consideration. The Board has given less weight to the board of review comparables due to their dissimilar foundation style when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables. The Board finds that these comparables are most similar to the subject in location, design, foundation style, age, dwelling size and some features. These most similar comparables have improvement assessments ranging from \$20,346 to \$23,476 or from \$10.86 to \$11.61 per square foot of living area. The subject's improvement assessment of \$23,990 or \$12.81 per square foot of living area, falls above the range of the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
