

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Belinda Shastal
DOCKET NO.: 21-32300.001-R-1
PARCEL NO.: 14-18-222-010-0000

The parties of record before the Property Tax Appeal Board are Belinda Shastal, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$52,800
IMPR.: \$38,009
TOTAL: \$90,809

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 6,600 square foot parcel of land improved with a 108-year-old, two-story, masonry, multi-family dwelling, containing 3,892 square feet of living area. Features of the property include a full, unfinished basement, two full bathrooms, and one half bathroom. The property is located in Chicago, Lake View Township, Cook County and is a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant contends overvaluation as the basis of the appeal. In support of its overvaluation argument, appellant submitted sales information on eight comparable properties that sold between June 2021 and June 2022 for prices ranging between \$162.53 to \$336.63 per square foot of living area, including land. The comparable sales were improved with a two-story, multi-family dwelling, of masonry construction, contained between 2,124 and 3,030 square feet of living area, and had either two or three bathrooms. They ranged in age between 104 and 115 years old. They were located within ten blocks of the subject property. Four of the comparable

properties had a garage or car port and all of the comparable properties had a full basement. Based on this evidence, appellant requested a reduction in the subject property's assessment to \$75,000. Appellant also included a copy of the board of review's August 22, 2022, written decision reflecting a final assessment for the subject property of \$90,809. The petition discloses the subject is an owner-occupied residence.

The board of review submitted its "Board of Review Notes on Appeal" depicting a total assessed valuation of \$90,809, with an improvement assessment of \$38,009. The subject's assessment reflects a market value of \$908,090, or \$233.32 per square foot of living area when applying the level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance. In support of its contention of the correct assessment, the board of review submitted four comparable properties. None of the board of review's comparables provided sales information.

Conclusion of Law

Appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be appellant's sales comparables #2, #5, #6, and #8. These properties sold between 2021 and 2022 for prices ranging between \$162.53 and \$255.78 per square foot of living area, including land. All of appellant's comparables were close in proximity to the subject property and similar to it in construction and amenities. The comparables selected as the best evidence were given more weight because they were most similar to the subject property in living area square footage, although they all contained less living area square footage than the subject property. The board of review did not provide any sales information for its comparables. The subject's current assessment of \$233.32 per square foot of living area, including land, reflects a market value within the market value established by the best comparables in this record. Based on this record, the Board finds appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
