

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 1244 N. Cleaver, LLC
DOCKET NO.: 21-32381.001-R-1
PARCEL NO.: 17-05-123-022-0000

The parties of record before the Property Tax Appeal Board are 1244 N. Cleaver, LLC, the appellant, by Abby L. Strauss, attorney-at-law of Schiller Law P.C. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,750
IMPR.: \$60,956
TOTAL: \$79,706

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a three-story multi-family building of masonry-exterior construction that contains 4,158 square feet of building area. The building is approximately 132 years old. Features of the building include a slab foundation and six bathrooms. The property has a 3,125 square foot site located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables composed of class 2-11 properties improved with buildings of masonry or frame and masonry exterior construction that range in size from 4,197 to 4,284 square feet of building area. Each property has a full or partial basement and three or six bathrooms. One comparable

has a 3-car garage. These properties have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$60,024 to \$64,004 or from \$14.10 to \$14.94 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$60,956.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$137,419. The subject property has an improvement assessment of \$118,669 or \$28.54 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-11 properties improved with two-story buildings of frame, masonry, or frame and masonry exterior construction that range in size from 1,152 to 1,444 square feet of building area and in age from 125 to 153 years old. Three comparables have a full unfinished basement and one comparable has a slab foundation. Each property has 1 or 2 bathrooms. These properties have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$38,000 to \$46,000 or from \$30.16 to \$33.81 per square foot of building area.

In rebuttal the appellant's counsel asserted the subject has 4,158 square feet of building area while the board of review comparables have 1,260, 1,260, 1,152 and 1,444 square feet of building area, respectively. The appellant's counsel also noted the subject building is of masonry construction while board of review comparables #2 and #4 are of frame construction.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight comparables with the same classification code and neighborhood code submitted by the parties to support their respective positions. The Board finds the best evidence of assessment equity to be the appellant's comparables that are more similar to the subject building in size than are the comparables submitted by the board of review. These comparables have improvement assessments that range from \$60,024 to \$64,004 or from \$14.10 to \$14.94 per square foot of building area. The subject's improvement assessment of \$118,669 or \$28.54 per square foot of building area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
