

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mehmet C. Comez
DOCKET NO.: 21-32471.001-R-1
PARCEL NO.: 14-28-320-021-0000

The parties of record before the Property Tax Appeal Board are Mehmet C. Comez, the appellant, by attorney Gregory J. Hilton, of Property Tax Solutions in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,120
IMPR.: \$80,880
TOTAL: \$102,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, multi-family building of masonry exterior construction with 3,060 square feet of building area. The building is approximately 131 years old. Features include a full basement finished with an apartment and three fireplaces. The property has a 1,760 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,796 to 4,447 square feet of building area. The comparables range in age from 123 to

133 years old. Each comparable is reported to have a full basement. The comparables have improvement assessments ranging from \$66,000 to \$96,572 or from \$21.72 to \$24.68 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$71,757 or \$23.45 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$102,000. The subject property has an improvement assessment of \$80,880 or \$26.43 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 2-story or 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 3,191 to 3,362 square feet of building area. The comparables range in age from 123 to 138 years old. Each comparable has a full basement with one finished with a recreation room. Two comparables each have two fireplaces. The comparables have improvement assessments ranging from \$85,774 to \$109,000 or from \$26.82 to \$34.15 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 as well as the board of review's comparables as they are more similar to the subject in location, age, building size, and some features. These comparables have improvement assessments ranging from \$66,000 to \$109,000 or from \$23.61 to \$34.15 per square foot of building area. The subject's improvement assessment of \$80,880 or \$26.43 per square foot of building area falls within the range established by the best comparables in this record. The Board gave less weight to the appellant's comparables #3 and #4 due to substantial differences in building size when compared to the subject. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
