

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eric Kirsammer
DOCKET NO.: 21-34415.001-R-1
PARCEL NO.: 14-20-426-029-0000

The parties of record before the Property Tax Appeal Board are Eric Kirsammer, the appellant, by attorney William J. Davy, of the Law Offices of William J. Davy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$56,250
IMPR.: \$80,750
TOTAL: \$137,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, mixed-use building of masonry exterior construction with 6,000 square feet of building area. The building is approximately 109 years old. Features include a partial basement. The property has a 3,750 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 2-story or 3-story, class 2-12 mixed-use buildings of masonry exterior construction ranging in size from 5,250 to 6,048 square feet of building area. The comparables range in age from 69 to 118 years old. Two comparables each have a partial basement and one

comparable is reported to lack a basement foundation. Two comparables each have central air conditioning. One comparable has two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$56,750 to \$60,625 or from \$9.38 to \$11.36 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$63,292 or \$10.55 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$137,000. The subject property has an improvement assessment of \$80,750 or \$13.46 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 3-story, class 2-12 mixed-use buildings of masonry exterior construction ranging in size from 5,733 to 6,000 square feet of building area. The comparables range in age from 92 to 100 years old. Three comparables each have a partial basement with one finished with an apartment and one comparable has a concrete slab foundation. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$80,500 to \$88,255 or from \$13.67 to \$15.33 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #3 as they are more similar to the subject in location, age, building size, and most features. These comparables have improvement assessments ranging from \$81,000 to \$88,255 or from \$13.67 to \$15.33 per square foot of building area. The subject's improvement assessment of \$80,750 or \$13.46 per square foot of building area falls below the range established by the best comparables in this record. The Board gave less weight to the appellant's comparables and board of review comparable #4 due to differences in garage amenity, fireplace count, age, dwelling size, and/or foundation type when compared to the subject. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
