

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Emily Watson
DOCKET NO.: 21-34551.001-R-1
PARCEL NO.: 16-02-217-045-0000

The parties of record before the Property Tax Appeal Board are Emily Watson, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,690
IMPR.: \$30,310
TOTAL: \$34,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 1,750 square feet of living area. The home is approximately 118 years old. Features include a full basement.¹ The property has a 3,075 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located in the subject's assessment neighborhood code. The comparables

¹ The appellant's evidence is internally inconsistent as Section III of the appeal petition disclosed the subject lacks a fireplace, but the grid analysis indicates the subject has one fireplace. The board of review grid reports the subject lacks a fireplace, which was unrefuted by the appellant.

are improved with class 2-03 dwellings of masonry or wood and masonry exterior construction ranging in size from 1,682 to 1,788 square feet of living area. The homes range in age from 115 to 130 years old. Each comparable has a full basement and one fireplace. Three comparables have either a 1 car or a 2-car garage. The comparables have improvement assessments ranging from \$22,429 to \$26,280 or from \$13.33 to \$14.70 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$24,343 or \$13.91 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$34,000. The subject property has an improvement assessment of \$30,310 or \$17.32 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with 1.5-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,713 to 1,775 square feet of living area. The homes are either 118 or 123 years old. Each comparable has a full basement and either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$32,428 to \$37,457 or from \$18.70 to \$21.87 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds each of the parties' comparables to be similar to the subject in location, design, age, and dwelling size with varying degrees of similarity in fireplace amenity, garage amenity, and other features requiring appropriate adjustments to make them more equivalent to the subject. These comparables have improvement assessments ranging from \$22,429 to \$37,457 or from \$13.33 to \$21.87 per square foot of building area. The subject's improvement assessment of \$30,310 or \$17.32 per square foot of building area falls within the range established by the comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
