

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Eckardt
DOCKET NO.: 21-34570.001-R-1
PARCEL NO.: 13-25-409-021-0000

The parties of record before the Property Tax Appeal Board are Steve Eckardt, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,750
IMPR.: \$36,144
TOTAL: \$51,894

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,423 square feet of living area. The home is approximately 116 years old. Features include a full basement and a 1-car garage. The property has a 3,150 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of wood or wood and masonry exterior construction ranging in size from 1,258 to 1,557 square feet of living area. The homes range in age from 108 to 125 years old. Each comparable has a full basement, two of which

have finished area, one fireplace, and from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$22,896 to \$32,250 or from \$18.20 to \$20.71 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$27,194 or \$19.11 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$51,894. The subject property has an improvement assessment of \$36,144 or \$25.40 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with 1.5-story, class 2-03 dwellings of frame exterior construction ranging in size from 1,384 to 1,440 square feet of living area. The homes range in age from 119 to 131 years old. Each comparable has a full basement, one of which has finished area. Two comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$38,318 to \$40,250 or from \$27.08 to \$28.77 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #5 as well as board of review comparables #2, #3, and #4 which are more similar to the subject in location, design/class code, age, dwelling size, and many features. These comparables have improvement assessments ranging from \$28,375 to \$40,250 or from \$18.87 to \$28.77 per square foot of living area. The subject's improvement assessment of \$36,144 or \$25.40 per square foot of living area falls within the range established by the best comparables in this record. The Board gives less weight to the parties' remaining comparables due to differences in dwelling size or basement finish when compared to the subject. Further, the appellant's comparable #4 has a dissimilar 1-story design in contrast to the subject's 1.5-story design. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement is supported and a reduction is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
