

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Virgin Future Prop LLC Series 2
DOCKET NO.: 21-34572.001-R-1
PARCEL NO.: 13-36-206-001-0000

The parties of record before the Property Tax Appeal Board are Virgin Future Prop LLC Series 2, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,262
IMPR.: \$38,080
TOTAL: \$50,342

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, mixed-use building of masonry exterior construction with 4,374 square feet of building area. The building is approximately 125 years old. Features include a partial basement and a 2-car garage. The property has a 2,725 square foot site is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located in the subject's assessment neighborhood code as the subject property. The comparables are improved with 2-story, class 2-12 buildings of masonry exterior construction ranging in size from 3,606 to 5,185 square feet of building area. The buildings range in age from 97 to 123 years old. Each comparable has a full basement. Four comparables

each have one fireplace. Two comparables each have a 1.5-car garage. The comparables have improvement assessments ranging from \$30,500 to \$47,474 or from \$7.70 to \$9.51 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$38,080 or \$8.71 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,251. The subject property has an improvement assessment of \$48,989 or \$11.20 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-12 buildings of masonry or frame and masonry exterior construction ranging in size from 1,120 to 3,200 square feet of building area. The homes range in age from 111 to 130 years old. Each comparable has a partial basement. One comparable has a 1.5-car garage. The comparables have improvement assessments ranging from \$25,262 to \$36,592 or from \$11.44 to \$22.56 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables which are overall more similar to the subject in location, design, age, foundation type, and building size with varying degrees of similarity in fireplace count, garage amenity, and other features requiring appropriate adjustments to make them more equivalent to the subject. Nevertheless, these comparables have improvement assessments ranging from \$30,500 to \$47,474 or from \$7.70 to \$9.51 per square foot of building area. The subject's improvement assessment of \$48,989 or \$11.20 per square foot of building area falls above the range established by the best comparables in this record and is excessive. The Board gives less weight to the board of review comparables due to substantially differences in dwelling size when compared to the subject. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the appellant's request, is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
