

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth Koehler
DOCKET NO.: 21-35208.001-R-1
PARCEL NO.: 09-24-325-031-0000

The parties of record before the Property Tax Appeal Board are Kenneth Koehler, the appellant, by Andreas Mamalakis, attorney-at-law of the Law Offices of Andreas Mamalakis in Kenosha, Wisconsin, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,192
IMPR.: \$16,320
TOTAL: \$21,512

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.¹

Findings of Fact

The subject property is improved with one-story dwelling of masonry exterior construction with 945 square feet of living area. The dwelling is approximately 66 years old. Features of the home include a one bathroom and a 1.5-car garage.² The property has a 6,700 square foot site located in Niles, Maine Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The appellant's counsel originally requested a hearing before the Property Tax Appeal Board but subsequently withdrew the request for a hearing.

² The appellant described the subject dwelling as having a full basement with an apartment and two fireplaces. The board of review described the subject dwelling as having a slab foundation and no fireplace. Neither party submitted documentation to support their respective descriptions of the subject property.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-02 properties improved with one-story dwellings of masonry exterior construction that range in size from 898 to 997 square feet of living area. The homes range in age from 62 to 69 years old. Four comparables have a full basement with finished area and one comparable has a slab foundation. The comparables have 1 or 1½ bathrooms, and one or two fireplaces. Four comparables have a 1-car or 2-car garage. These properties have the same assessment neighborhood code as the subject property and are located from .19 to .87 of a mile from the subject property. The comparables have improvement assessments that range from \$10,385 to \$11,647 or from \$11.02 to \$12.25 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$10,990.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,512. The subject property has an improvement assessment of \$16,320 or \$17.27 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-02 properties improved with one-story dwellings of masonry exterior construction that have either 945 or 963 square feet of living area. Each dwelling is 66 years old. Two comparables have full basements, one comparable has a crawl space foundation and one comparable has a slab foundation. Each property has one bathroom and a 1.5-car or a 2-car garage. Two comparables have central air conditioning. The comparables have the same neighborhood code as the subject and are located in the same block and along the same street as the subject property. The comparables have improvement assessments ranging from \$19,564 to \$21,428 or from \$20.70 to \$22.25 per square foot of living area. The board of review contends the building assessed value per square foot for all comparables are equal or higher than the subject, which supports the 2021 assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The comparables are improved with dwellings similar to the subject in style, age, exterior construction and size. The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in location than are the comparables submitted by the appellant. The board of review comparables are located along the same street and within the same block as the subject property. The board of review comparables have varying degrees of similarity to the subject in features with improvement assessments that range from \$19,564 to \$21,428 or from \$20.70 to \$22.25 per square foot of living area. The subject's

improvement assessment of \$16,320 or \$17.27 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
