

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Lov
DOCKET NO.: 21-35220.001-R-1
PARCEL NO.: 09-13-303-007-0000

The parties of record before the Property Tax Appeal Board are David Lov, the appellant, by Andreas Mamalakis, attorney-at-law of the Law Offices of Andreas Mamalakis in Kenosha, Wisconsin, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,815
IMPR.: \$22,662
TOTAL: \$28,477

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.¹

Findings of Fact

The subject property is improved with a multi-level dwelling of frame and masonry exterior construction that contains 1,549 square feet of living area. The dwelling is approximately 52 years old. Features of the property include a basement, two bathrooms and 2-car garage.² The property has a 7,504 square foot site located in Morton Grove, Maine Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The appellant's counsel originally requested a hearing before the Property Tax Appeal Board but subsequently withdrew the request for a hearing.

² The appellant described the subject property as having full unfinished basement, no central air conditioning and one fireplace. The board of review described the subject as having a partial basement with a formal recreation room, central air conditioning, and no fireplace. Neither party submitted additional documentary evidence to support their respective descriptions of the subject property.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-34 properties improved with multi-level dwellings of frame and masonry exterior construction that range in size from 1,268 to 1,337 square feet of living area. The homes range in age from 57 to 64 years old. Each property has a full unfinished basement, one fireplace, and 1 or 1½ bathrooms. Four comparables have central air conditioning and one comparable has a 2-car garage. These properties have the same assessment neighborhood code as the subject property and are located from .08 to .22 of a mile from the subject property. The comparables have improvement assessments ranging from \$13,841 to \$15,577 or from \$10.35 to \$12.18 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$17,473.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,477. The subject property has an improvement assessment of \$22,662 or \$14.63 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-34 properties improved with multi-level dwellings of frame and masonry exterior construction that range in size from 1,559 to 1,599 square feet of living area. The homes range in age from 53 to 56 years old. Each property has a partial basement with a formal recreation room, central air conditioning, 2½ bathrooms, and a 2-car or 2.5-car garage. Two comparables have one fireplace each. These properties have the same assessment neighborhood code as the subject property and located in the same assessment block as the subject property. Comparables #1 and #2 are located along the same street as the subject property. The comparables have improvement assessments that range from \$24,151 to \$26,467 or from \$15.43 to \$16.55 per square foot of living area. The board of review contends the building assessed value per square foot for all comparables are equal or higher than the subject, which supports the 2021 assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject property in location, age and size than are the comparables provided by the appellant. Additionally, each of the board of review comparables has a garage, a feature of the subject property, while four of the comparables submitted by the appellant have no garage, which further detracts from the weight given these comparables. The board of review

comparables have improvement assessments that range from \$24,151 to \$26,467 or from \$15.43 to \$16.55 per square foot of living area. The subject's improvement assessment of \$22,662 or \$14.63 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
