

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Parixit Modi
DOCKET NO.: 21-35234.001-R-1
PARCEL NO.: 09-15-111-074-0000

The parties of record before the Property Tax Appeal Board are Parixit Modi, the appellant, by Andreas Mamalakis, attorney-at-law of the Law Offices of Andreas Mamalakis in Kenosha, Wisconsin, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,137
IMPR.: \$18,073
TOTAL: \$21,210

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.¹

Findings of Fact

The subject property is improved with a two-story dwelling of frame and masonry exterior construction containing 1,789 square feet of living area. The dwelling is approximately 54 years old. Features of the home include an unfinished basement, central air conditioning, 2½ bathrooms, and a 1-car garage.² The property has a 3,137 square foot site located in Des Plaines, Maine Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The appellant's counsel originally requested a hearing before the Property Tax Appeal Board but subsequently withdrew the request for a hearing.

² The appellant described the subject dwelling as having a full unfinished basement and one fireplace. The board of review described the home as having a partial unfinished basement and no fireplace. Neither party submitted additional documentary evidence to support their respective descriptions of the subject property.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables consisting of class 2-95 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 1,550 to 1,632 square feet of living area. Each property has a full basement with three having finished area, one or two fireplaces, and 1½ or 2 bathrooms. Four comparables have central air conditioning. These properties have the same assessment neighborhood code as the subject property and are located from .35 to .53 of a mile from the subject property. Their improvement assessments range from \$10,518 to \$11,564 or from \$6.79 to \$7.31 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$12,684.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,210. The subject property has an improvement assessment of \$18,073 or \$10.10 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-95 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 1,559 to 1,789 square feet of living area. Each dwelling is 54 years old. Each property has a partial unfinished basement, central air conditioning, and 1½ or 2½ bathrooms. One comparable has a 1-car garage. These properties have the same assessment neighborhood code as the subject and are located in the same block as the subject. Comparables #1, #2 and #3 are located along the same street as the subject property. Their improvement assessments range from \$15,719 to \$18,075 or from \$10.08 to \$10.18 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The comparables are improved with dwellings similar to the subject in age, style, and exterior construction. All but one of the comparables is improved with a dwelling that is smaller than the subject property. Nevertheless, the Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in location than are the comparables submitted by the appellant. Three of the board of review comparables have no garage, unlike the subject property, and three comparables have one less bathroom than the subject, indicating these comparables would require upward adjustments to make them more equivalent to the subject for these differences. The board of review comparables have improvement assessments that range from \$15,719 to \$18,075 or from \$10.08 to \$10.18 per square foot of living area. Board of review comparable #2 is equivalent to the subject in

dwelling size and features with an improvement assessment of \$18,075 or \$10.10 per square foot of living area. The subject's improvement assessment of \$18,073 or \$10.10 per square foot of living area falls within the range established by the best comparables in this record and is practically equivalent to the comparable most similar to the subject in dwelling size and features. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
