

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nilesh Rana  
DOCKET NO.: 21-35244.001-R-1  
PARCEL NO.: 09-15-215-016-0000

The parties of record before the Property Tax Appeal Board are Nilesh Rana, the appellant, by Andreas Mamalakis, attorney-at-law of the Law Offices of Andreas Mamalakis in Kenosha, Wisconsin, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,010  
**IMPR.:** \$15,854  
**TOTAL:** \$18,864

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.<sup>1</sup>

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction containing 1,501 square feet of living area. The dwelling is approximately 55 years old. Features of the property include a basement, central air conditioning, and 1½ bathrooms.<sup>2</sup> The property has a 3,010 square foot site located in Des Plaines, Maine Township, Cook County. The subject is classified as a class 2-95 rowhouse or townhome property under the Cook County Real Property Assessment Classification Ordinance.

---

<sup>1</sup> The appellant's counsel originally requested a hearing before the Property Tax Appeal Board but subsequently withdrew the request for a hearing.

<sup>2</sup> The appellant described the subject property as having a full unfinished basement, and one fireplace. The board of review described the property as having a partial unfinished basement and no fireplace. Neither party provided additional documentation to support their respective descriptions of the subject property.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables consisting of class 2-95 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 1,238 to 1,267 square feet of living area. The homes are 55 or 59 years old. Each property has a full basement with one having finished area, central air conditioning, one or two fireplaces and 1½ bathrooms. The comparables have the same assessment neighborhood code as the subject property and are located from .41 to .53 of a mile from the subject. These properties have improvement assessments ranging from \$7,344 to \$7,571 or from \$5.87 to \$6.12 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$9,006.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,864. The subject property has an improvement assessment of \$15,854 or \$10.56 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-95 properties improved with two-story dwellings of frame and masonry exterior construction each with 1,501 square feet of living area. The homes range in age from 55 to 57 years old. Each property has a partial unfinished basement, central air conditioning and 1½ bathrooms. The comparables have the same assessment neighborhood code as the subject and are located in the same block or ¼ of a mile from the subject property. Comparable #1 is located on the same street as the subject property. The comparables have improvement assessments ranging from \$15,864 to \$15,952 or from \$10.57 to \$10.63 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the correctness of the assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables that have the same classification code and neighborhood code as the subject property to support their respective positions. The comparables are similar to the subject style, age, exterior construction, and most features. The Board, however, finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in location and dwelling size than are the comparables submitted by the appellant. The board of review comparables have improvement assessments that range from \$15,864 to \$15,952 or from \$10.57 to \$10.63 per square foot of living area. The subject's improvement assessment of \$15,854 or \$10.56 per square foot of living area falls slightly below the range established by the best comparables in this record.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. *Apex Motor Fuel Co. v. Barrett*, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not all assessed at identical levels, all that the constitution requires is a practical uniformity which exists based on the evidence in this record.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
