

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jovy Joy
DOCKET NO.: 21-35245.001-R-1
PARCEL NO.: 09-19-203-067-0000

The parties of record before the Property Tax Appeal Board are Jovy Joy, the appellant, by Andreas Mamalakis, attorney-at-law of the Law Offices of Andreas Mamalakis in Kenosha, Wisconsin, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,500
IMPR.: \$22,070
TOTAL: \$26,570

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.¹

Findings of Fact

The subject property is improved with a two-story dwelling of frame and masonry exterior construction containing 2,333 square feet of living area. The dwelling is approximately 66 years old. Features of the property include central air conditioning, 3½ bathrooms and a 2-car garage.² The property has a 7,200 square foot site located in Des Plaines, Maine Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The appellant's counsel originally requested a hearing before the Property Tax Appeal Board but subsequently withdrew the request for a hearing.

² The appellant described the subject as having a full basement with an apartment, and one fireplace. The board of review described the subject as having a slab foundation and no fireplace. Neither party submitted additionally information to support their respective descriptions of the subject property.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables consisting of class 2-06 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 2,223 to 2,577 square feet of living area. The homes range in age from 63 to 69 years old. Each comparable has a full basement with either an apartment or a recreation room. Each property has one or two fireplaces and 2, 2½ or 4½ bathrooms. Three comparables have a 1.5-car or 2-car garage. These properties have the same neighborhood code as the subject and are located from .16 to .90 or a mile from the subject. The comparables have improvement assessments ranging from \$16,050 to \$23,102 or from \$7.22 to \$8.96 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$18,547.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,570. The subject property has an improvement assessment of \$22,070 or \$9.46 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed class 2-05 or class 2-06 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 1,998 to 2,491 square feet of living area. The dwellings range in age from 65 to 67 years old. Three comparables have concrete slab foundations and one comparable has a full basement with a formal recreation room. Each comparable has central air conditioning, and a 2-car or a 2.5-car garage. The comparables have 2, 3 or 3 ½ bathrooms. One comparable has one fireplace. These properties have the same assessment neighborhood code as the subject property and are located ¼ of a mile from the subject property. These properties have improvement assessments ranging from \$23,927 to \$28,333 or from \$9.61 to \$13.36 per square foot of living area. The board of review asserted the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the correctness of the 2021 assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same neighborhood code as the subject property to support their respective positions. The comparables are improved with dwellings similar to the subject in style, exterior construction, and age. The Board gives less weight to appellant's comparables #1, #2, #3 and #4 as these properties have no garage and/or no central air conditioning, which are features of the subject property. The Board gives less weight to board of review comparable #1 due to differences from the subject dwelling in size. The Board gives most weight to appellant's comparable #5 and board of review comparables #2, #3 and #4 that range in size from 2,158 to 2,577 square feet of living area. These properties have

varying degrees of similarity to the subject dwelling in features. These four comparables have improvement assessments that range from \$23,102 to \$28,833 or from \$8.96 to \$13.36 per square foot of living area. The subject's improvement assessment of \$22,070 or \$9.46 per square foot of living area falls below the range of the total improvement assessments but is within the range on a per square foot of living area basis as established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
