

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martin Kinczel
DOCKET NO.: 21-36183.001-R-1
PARCEL NO.: 14-21-306-042-1030

The parties of record before the Property Tax Appeal Board are Martin Kinczel, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,748
IMPR.: \$11,251
TOTAL: \$13,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of one-story brick condominium residential unit. The dwelling was constructed in 1956. The property is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information which reflected sales of four one-bedroom condominium units that sold from December 2019 to September 2021 for prices ranging from \$120,000 to \$164,000 or \$156.17 to \$298.18 per square foot. One of the condominium units was listed in the same complex as the subject property and the other three were located within a ¼ mile radius of the subject's location. Based on this, the appellant requested an assessed value of \$12,000.

The board of review submitted its “Board of Review Notes on Appeal” disclosing that the total assessment for the subject is \$13,999. The subject’s assessment reflects a market value of \$139,990 when applying the 2021 statutory level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted a condominium analysis showing six units in the subject’s building or 11.25% of ownership in the common elements sold from April 2018 to December 2019 for an aggregate price of \$480,188. This analysis included one of the subject units. The aggregate sale price was then divided by the percentage of ownership interest in the common elements of the units sold to arrive at a total market value for the building of \$4,268,338.

This appeal was the subject of a hearing before the Board. During this hearing, the appellant stated the subject property is in its original condition with no updates while other units in the building were fully rehabbed.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value of the property must be proven by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof, and a reduction in the subject’s assessment is not warranted.

“Real property taxes . . . which are authorized by law to be assessed against and levied upon real property shall be assessed against and levied upon each unit and the owner’s corresponding percentage of ownership in the common elements as a tract, and not upon the property as a whole.” 765 ILCS 605/10(a).

The Board finds the best evidence of market value to be the sale sales analysis submitted by the board of review. In taking the aggregate sales price of the most similar sales (\$480,188) and dividing by the total percentage of ownership in the common elements of the units sold (11.25%), the Board finds that the subject’s building has a market value of \$4,268,338. Utilizing the subject unit’s percentage of ownership in the common elements (3.87%) results in a market value for the subject of \$165,185. The subject’s current assessment reflects a market value below the market value established by the best comparables in this record. Based on this record, the Board finds the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject’s assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
