

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alan Dunleavy
DOCKET NO.: 21-36624.001-R-1
PARCEL NO.: 14-20-301-007-0000

The parties of record before the Property Tax Appeal Board are Alan Dunleavy, the appellant, by attorney Ciarra J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$44,220
IMPR.: \$41,582
TOTAL: \$85,802

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 2,192 square feet of building area. The building is approximately 123 years old. The building has a full basement and a 2-car garage. The property has a 2,948 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on two grid analyses for five equity comparables that are located in the subject's neighborhood code.¹ For clarity in the record, the single comparable on the second grid was renumbered #5. The comparables are

improved with 2-story, class 2-11 multi-family buildings of frame, masonry, or frame and masonry exterior construction ranging in size from 2,000 to 2,332 square feet of building area. The comparables range in age from 116 to 130 years old. Each comparable has a full or partial basement. Two comparables have either a 2.5-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$19,036 to \$21,875 or from \$9.38 to \$9.75 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$20,648 or \$9.42 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$85,802. The subject property has an improvement assessment of \$41,582 or \$18.97 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 2-story, multi-family buildings of masonry exterior construction ranging in size from 2,180 to 2,376 square feet of building area. The comparables are either 113 or 127 years old. Each comparable has a full basement. Three comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$44,200 to \$52,640 or from \$20.28 to \$22.15 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 as well as the board of review comparables #1, #2, and #4 to be similar to the subject in location, age, building size, and other features. These comparables have improvement assessments ranging from \$19,036 to \$51,000 or from \$9.38 to \$21.46 per square foot of building area. The subject's improvement assessment of \$41,582 or \$18.97 per square foot of building area falls within the range established by the best comparables in this record. The Board gives less weight to the parties' three remaining comparables which lack a garage, a feature of the subject. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
