

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Julie Robinson
DOCKET NO.: 21-36693.001-R-1
PARCEL NO.: 14-18-321-014-0000

The parties of record before the Property Tax Appeal Board are Julie Robinson, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,125
IMPR.: \$107,522
TOTAL: \$135,647

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,846 square feet of living area. The dwelling is approximately 7 years old. The home features a basement with finished area, central air conditioning, two fireplaces and a 2-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information, including property information sheets, on five comparables that have the same assessment neighborhood code as the subject. The comparables consist of class 2-78 two-story dwellings of frame or masonry exterior construction ranging in size from 2,638 to 2,976 square feet of living area and are from

approximately 15 to 25 years old. The comparables each have a basement, one of which has finished area, central air conditioning and a 3.5-car garage. Four comparables each have from one to three fireplaces. The comparables have improvement assessments that range from \$57,875 to \$71,817 or from \$21.94 to \$24.64 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$68,673 or \$24.13 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$135,647. The subject property has an improvement assessment of \$107,522 or \$37.78 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code as the subject and are located within the same block or a quarter of a mile from the subject. The comparables consist of class 2-78, two-story dwellings of frame exterior construction ranging in size from 2,566 to 2,867 square feet of living area and are each 3 years old. The comparables each have a basement with finished area, central air conditioning, one or two fireplaces, and a 2-car garage. The comparables have improvement assessments that range from \$101,829 to \$121,875 or from \$39.00 to \$44.77 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables due to their older aged dwellings when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are overall more similar to the subject in location, design, age, dwelling size, and other features. These four comparables have improvement assessments that range from \$101,829 to \$121,875 or from \$39.00 to \$44.77 per square foot of living area. The subject's improvement assessment of \$107,522 or \$37.78 per square foot of living area falls within the range established by the best comparables in the record on an overall basis but below the range on a per-square-foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
