

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Oskin
DOCKET NO.: 21-36751.001-R-1
PARCEL NO.: 14-29-408-028-0000

The parties of record before the Property Tax Appeal Board are John Oskin, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$46,875
IMPR.: \$132,125
TOTAL: \$179,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story dwelling of masonry exterior construction with 3,756 square feet of living area. The home is approximately 16 years old. Features of the home include a full basement with finished area, central air conditioning, three fireplaces, and a 2.5-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 2-story or 3-story, class 2-78 dwellings of masonry exterior construction ranging in size from 3,500 to 3,728 square feet of living area. The homes range in age from 24

to 40 years old. Each comparable has central air conditioning, one fireplace, and either a 3-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$58,500 to \$68,400 or from \$15.69 to \$19.00 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$69,223.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$179,000. The subject property has an improvement assessment of \$132,125 or \$35.18 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 2-story or 3-story, class 2-78 dwellings of masonry exterior construction ranging in size from 3,100 to 3,798 square feet of living area. The homes range in age from 17 to 27 years old. Each comparable has a full basement with finished area, central air conditioning, two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$112,189 to \$147,125 or from \$35.48 to \$38.74 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be board of review's comparables #1, #2, and #3 which are overall most similar to the subject in design, age, dwelling size, and other features. These comparables have improvement assessments ranging from \$134,125 to \$147,125 or from \$35.48 to \$38.74 per square foot of living area. The subject's improvement assessment of \$132,125 or \$35.18 per square foot of living area falls below the range established by the best comparables in this record. The Board gives less weight to the appellant's comparables which lack a basement foundation, which is a feature of the subject, and/or are less similar to the subject in age than other comparables in this record. The Board also gives less weight to board of review comparable #4 which is a substantially smaller home than the subject. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
